SUMMARY

Computer Science graduate with hands-on experience in building full-scale data pipelines and using AI for smart data extraction. Proficient in C#, Java, SQL, and Python, with a strong drive for problem-solving, innovation, and interest in cybersecurity. Eager to contribute to any role and grow within the tech industry.

EDUCATION

Brookdale Community College *Lincroft, NJ*

Jan 2023 - May 2025

A.A.S. in Computer Science, Programming Option; GPA: 3.5/4.0

Relevant Coursework: Programming (C#, Java, Python), Data Structures, Web Design (HTML, CSS, JavaScript), Systems Design, Database Management (SQL)

Relevant Achievements: 2023 and 2025 Dean's List, Member of NSLS and Phi Theta Kappa Honor Societies

Brookdale Community College *Lincroft, NJ*

Oct 2016 - Jan 2017

Continuing Education Certificate Programs, CompTIA A+

Developed hands-on IT support skills in assembling and maintaining computers, diagnosing hardware issues, and managing desktops, laptops, and mobile devices. Gained experience with Windows, macOS, and Linux systems, plus foundational knowledge in debugging, networking, security, cloud services, and virtualization.

Monmouth Regional High School *Tinton Falls, NJ*

2011 - 2014

High School Diploma, Active Member of Chess Club and Advanced Film

SKILLS & PROJECTS

Programming Languages: C#, Java, Python, SQL, HTML, CSS, JavaScript

Tools & Platforms: Visual Studio, MySQL, Eclipse, NetBeans, Notepad++, Unity

Technologies: Artificial Intelligence, Databases, Data Handling & Extraction, Microsoft 365

Professional Skills: Strong problem-solving and analytical thinking · Effective communication · Team collaboration · Leadership and initiative · Time management · Adaptability in fast-paced environments · Attention to detail · Project coordination · Customer support

COMP-296 Final Project: Developed a first-person horror maze game in Unity where players control a sentient piece of corn navigating a randomly generated, solvable maze while evading an NPC on a tractor. Implemented mechanics like destructible walls and trampolines for vertical movement and maze overview. Programmed game logic in C# using Visual Studio and generated 3D models from images with Meshy AI.

EXPERIENCE

Outamation Externship *Remote Work*

Feb 2025 - Apr 2025

Outamation Document Insights and Data Extraction Externship

- Classified mortgage documents using AI tools, improving document processing efficiency and accuracy
- Developed a full-scale RAG pipeline using LlamaIndex, llama-cpp-python, Hugging Face, ChromaDB, Rank-BM25, PyMuPDF, and PyTorch, enhancing the accuracy and speed of information extraction from mortgage documents

PetSmart *West Long Branch, NJ*

Jun 2017 - Mar 2024

PetsHotel Pet Care Specialist

- Independently managed overnight operations for 50+ pets weekly, performing hourly wellness checks, administering morning care, and ensuring a safe, stress-free environment for all pets
- Maintained clean and sanitary facilities by following cleaning protocols and addressing maintenance needs
- Trained several new hires for the district, enhancing onboarding, team performance, and service quality
- Recognized as Employee of the Month (Mar 2018, Feb 2019) for outstanding training of new hires
