

John Danlami

Full-Stack Developer | Smart Contract Engineer | Mobile Developer | Freelancer

Software Developer with 3+ years of experience building full-stack web applications using React, Next.js, Node.js, TypeScript, and ReactNative. Certified in Software Engineering and Full-Stack Development. Experienced in delivering freelance projects from landing pages to full SaaS platforms. Skilled in Web3 development with Solidity, Hardhat, Foundry, and Viem, focusing on DApps with staking, rewards, and RWA features. Co-built *Chain Insured*, a decentralized insurance platform, during a Web3 hackathon. Active contributor to Web3 and StarkNet open-source ecosystems, with a focus on decentralization and user-centered design.
