## Experience

---

### Inkeros

Nov 2024 – Present

*Software Development Engineer*

*Toronto, Ontario*

- Developing **SaaS CRM** for telecom sales **from 0 to 1**, delivered **40+ features** such as sales tracking, commission calculations, push notifications, and Google Maps API integration.
- Configured **VS Code Dev Container setup** (containing tools, extensions, dependencies) to streamline onboarding; leveraged Vertex AI Gemini 2.5 Pro to summarize the codebase, enabling **faster ramp-up for 15+ engineers**.
- Implemented CI/CD pipelines using **Cloud Build** to automatically deploy **Cloud Workflows and Functions** from GitHub; integrated automated checks with pytest for unit testing, linters, and formatters.
- Designed SSO and OAuth authentication using **Microsoft Entra ID**, automating user provisioning to **onboard 400+ users**; collaborated with other engineers to implement **Redis-based caching** of token validation results
- Initiated refactoring of company website ground up using **Next.js** to improve SEO; **engineered interactive UI components** such as sliders, modals, and scroll animations with **GSAP** to deliver a modern user experience.

### Aventas

Sep 2024 – Nov 2024

*Data Analyst*

*Toronto, Ontario*

- Recovered \$18,000+** by **reconciling 470k+ sales records** with clients, and standardized reconciliation methods by **automating dashboards** that are currently **used across 8 offices Canada-wide**.
- Constructed **ETL pipeline** to transform data across multiple sources (CRM, Excel sheets, product logs) into BigQuery, powering **live PowerBI dashboards** that replaced biweekly reports and enabled real-time, informed decision-making.
- Selected by CTO** to transition to parent company (Inkeros) after 3 months to take on **expanded responsibilities** that better fit interests.

## Projects

---

### QA Call Automation using Vertex AI STT | *Python; GCP; REST APIs*

November 2025

- Awarded **2nd place in a company-wide hackathon** for building a serverless compliance automation pipeline that **reduces full-length manual call review time by 98%**; project was later **adopted as a live feature** used by QA team daily.
- Integrated **Jira REST API** with **Cloud Functions** and **Cloud Scheduler** to fetch audio files from tickets. Used **Vertex AI Speech-to-Text** and **Gemini 2.5 Pro** within **Cloud Workflows** to transcribe & analyze calls for downstream processing.
- Automated workflow uploads of analyzed sales call data into BigQuery, enabling **real-time reporting and feedback dashboards** within the company's SaaS platform for sales representatives, **leading to their increased retention**.

### Credit Card Approval Prediction | *Python: Pandas, NumPy, PyTorch, scikit-learn, Matplotlib*

July 2024

- Conducted feature importance analysis, identifying **card defaulting** as a key predictor with **4× higher influence on approval outcomes** than other variables.
- Optimized credit card approval model with classifier selection, hyperparameter tuning, and regularization, **reducing errors 54.8%** and **improving true predictions 9.6%**.

## Technical Skills

---

**Languages & Frameworks:** Python, Java, JavaScript (React, Next.js, jQuery), Django, HTML, CSS, Tailwind CSS

**Cloud & DevOps Technologies:** Google Cloud Platform (Cloud Run, Cloud Functions, Cloud Storage, Pub/Sub, Vertex AI, Speech-to-Text API, Cloud SDK), Docker, Kubernetes, Git, GitHub Actions, Microsoft Entra ID, VSCode, Cron

**Databases & Analytics:** PostgreSQL, MySQL, SQLite, MongoDB, BigQuery, Redis, Apache Spark, NoSQL, pgAdmin, Azure Data Studio, DBeaver, Power BI, Tableau

**Tools & Practices:** Unit Testing (Pytest, Mocking/patch), REST APIs, Postman, Jira, Agile Methodology, UAT

## Education

---

### Georgia Institute of Technology

Jan 2025 – Present

*Online Master of Science in Analytics (OMSA)*

*Atlanta, Georgia*

### University of Toronto

Sep 2017 – Jun 2021

*Honors Bachelor of Science in Neuroscience - High Distinction and Dean's List Scholar*

*Toronto, Ontario*
