PROFESSIONAL SUMMARY

Computer Science **graduate** specialized in **Front-End Engineering & UX**. Built scalable, production-ready web apps with **React, JavaScript, HTML, CSS, Node.js**. Strong CS foundations in **data structures, algorithms, and OOP**. Deliver **responsive, accessible, customer-centric** interfaces, sustaining **95+ Lighthouse** scores and integrating AI features. Targeting Amazon internships (FE/UX) to contribute high-impact, user-focused products.

SKILLS

Frontend:	React, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Accessibility (WCAG/ARIA)
Backend:	Node.js, Express, REST APIs, MongoDB, MySQL
Tools & Concepts:	Git/GitHub, Vercel, Linux, Agile/Scrum, CI/CD Pipelines, PWA, UX/UI Principles, Wire-framing

EDUCATION

Seattle Central College — Associate of Science in Computer Science	Seattle, WA
Graduated: Jun 2025 Relevant coursework: Data Structures, Algorithms, Web Development, Engineering Physics	
Universidad de las Américas Puebla (UDLAP) — Studies in Computational Engineering	Puebla, MX
<i>2020–2023</i>	

PROFESSIONAL EXPERIENCE

Independent Front-End / Full-Stack Developer	Remote
<i>2023–Present</i>	

- Designed and deployed full-stack apps (**React + Node.js + MongoDB**); reusable component library, protected routes, and REST integration.
- Improved performance by **30%** via code-splitting, caching, image optimization, and semantic HTML; sustained **95+ Lighthouse** scores.
- Implemented **accessibility-first** UI (keyboard navigation, ARIA labels, color contrast), reducing UI defects flagged by testers.

Peer Programming Tutor — UDLAP	Puebla, MX
<i>Jan 2020–Jun 2023</i>	

- Mentored **100+** students in **OOP, algorithms, recursion, and data structures** across JS/Java/Python.
- Led weekly workshops and code reviews; improved cohort exam outcomes by **up to 20%**.

SELECTED PROJECTS

FitTrack — AI Fitness Tracker	<i>React, Node, MongoDB, OpenAI</i>
Interactive fitness dashboard with secure JWT auth, workout tracking, and AI coaching. Defined task flows and responsive UI; increased task success and engagement in pilot testing.	

ClubWorld HQ — Progressive Web App	<i>React, PWA</i>
Real-time match dashboards with offline caching and installable PWA. Bundle splitting and precache strategy improved first load and repeat visits; mobile-first UX kept flows under three taps.	

Seattle Watch Repair — Responsive Website	<i>React</i>
Vintage-style site focused on accessibility (semantics, alt text, contrast) and cross-browser compatibility. Componentized layout system aligned to brand guidelines.	

ADDITIONAL

Languages: Spanish (Native), English (Professional). **Work Eligibility:** F-1 visa — **OPT/CPT** eligible.
Interests: Human-centered design, performance optimization, sports-tech.
