Profile

Innovative and results-driven Software Developer with 5 years of hands-on experience in full-stack development. Proficient in React, Python, JavaScript, HTML5, CSS3, Bootstrap, and related technologies. Proven track record of delivering high-quality software solutions and effective team collaboration.

Skills

HTML5 • Bootstrap • JavaScript • Python • JQuery • JWT • SQL • CSS • React • Flask • Django • MongoDB • Git • Github • SQL • Nextt.JS • Tailwind.CSS

Projects

Music Exchange

04/2025 – 05/2025

- Built a responsive music exchange web app using Next.js and Tailwind CSS
- Enabled user registration and login for sharing and discovering music
- Designed a grid carousel layout to display music content interactively
- Created dedicated FAQ and About pages to support user experience
- Fostered a collaborative, community-based atmosphere for music enthusiasts
- Worked as part of a team, focusing on clean design and seamless functionality

Budget Tracker, *React and UI*

- Engineered a responsive Budget Tracker application using React, demonstrating proficiency in modern web development.
- Implemented robust expense management features, including addition, removal, and search capabilities.
- Optimized application performance, achieving an average response time of 200ms.
- Ensured secure data transactions, reinforcing the application's reliability and user trust.
- Integrated comprehensive editing functionality, enhancing user control over budgets and expenses.

React Flask Crud Project, *React, Flask, SQL, and Bootstrap*

- Developed a high-performing CRUD application using React and Flask, focusing on efficient data management.
- Implemented a custom API, ensuring secure endpoints and swift response times (avg. 150ms).
- Utilized SQL for robust database management, enhancing the application's data handling capabilities.
- Incorporated Bootstrap for responsive design, improving user interface across devices.
- Achieved seamless user data management through the custom API, enhancing the application's functionality.

Education

Certificate in Full Stack Web Development 2022, *4Geeks Academy*

Certificate in Front End Web Development 2021, *Midlands Technical College*

Certificate in Front End Web Development 2021, *FreeCodeCamp*

Work Experience

IT Operations Analyst, *TD Bank*

10/2024 – present | Lexington, United States

- Provide technical support to TD employees via inbound calls using Genesys CRM.
- Create and manage ServiceNow tickets for hardware, software, mobility, and access-related issues.
- Support BYOD devices and Microsoft Office for mobile, including password resets and mobile configurations.
- Troubleshoot and escalate complex issues involving Azure, Microsoft 365, Cisco Jabber, and Cisco Finesse.
- Deliver responsive and effective support for a wide range of Microsoft and Cisco products.

IT Support, *GN Audio*

06/2023 – present
Columbia, United States of America

- Effectively diagnosed and resolved technical issues, demonstrating strong analytical and problem-solving skills.
- Streamlined IT support processes through automation, highlighting an aptitude for optimizing workflows and potentially working with automation technologies.
- Thrived in a fast-paced environment by continuously learning new technologies, showcasing a valuable skill for the ever-evolving field of software development

Mobility Specialist, *Spectrotel*

04/2018 – 06/2023 | Columbia, United States

- Delivered technical support in 3 languages and translated technical emails, showcasing the ability to understand and translate complex information - essential for writing clear code.
- Translated technical details accurately, highlighting their ability to focus on more information - crucial for writing well-documented code.
- Ensured efficient phone delivery across regions, demonstrating proficiency in following complex protocols - a transferable skill for adhering to coding standards and development processes.

- Assisted customers with Volt and SmartLync applications.
- Created tickets and recorded data for each incoming call.

Bilingual Customer Service Representative, Teleperformance

11/2017 – 08/2018 | Columbia, United States

- Resolved complex financial inquiries and transactions for the IRS in Spanish and English, showcasing communication, problem-solving, and bilingual proficiency - all valuable for understanding and translating user needs into software solutions.
- Effectively determined customer needs through active listening, demonstrating an ability to analyze requirements and translate them into clear instructions - crucial for gathering user stories and building functional software.
- Demonstrated adaptability and commitment to learning by actively participating in weekly policy and procedure updates. This highlights the ability to learn new technologies and processes quickly, a key skill for success in the ever-evolving field of software development.
