EDUCATION

University of Maryland - A. James Clark School of Engineering

B.S. Computer Engineering

CIVICUS: Living Learning Program

College Park, MD

Expected May 2026

Citation Awarded May 2024

SKILLS

Languages: Python, Java, C#.NET, JavaScript, HTML, CSS, C, D2, UML

Software: WinAPI, Git, GitHub, Visual Studio 2022, VS Code, MATLAB, Arduino, PSpice, PLECS, Figma

WORK EXPERIENCE

Google

San Francisco, CA

Associate Product Manager Intern – AI Mode Suggest

May – Aug. 2025

- Designed typeahead suggestions in AI Mode to increase complex queries by 1% for 100M monthly users.
- Defined intent and complexity rankings and reduced irrelevant suggestions by 40% during internal testing.
- Led math query suggestion analysis, uncovering 0.01% CTR and guiding strategy updates targeting 1% CTR goal.
- Prioritized typeahead suggestions launch, presented to 20+ stakeholders, securing approval for testing on 1M+ users.

Qualcomm

San Diego, CA

Software Engineer Intern – C#.NET, D2, UML, Visual Studio

May – Aug. 2024

- Modernized a C#.NET debugging tool for a Windows-on-Snapdragon driver, streamlining debugging for 5+ engineers.
- Automated visualization of 30+ compound states and 117 state transitions, reducing documentation time by 15%.
- Optimized rendering pipelines, improving runtime by 50% and revealing redundant state transitions.
- Delivered technical recommendations to achieve 5% performance gains to senior staff along with final demonstration.

PROJECT EXPERIENCE

Seemless – Virtual Desktop Manager

College Park, MD

Desktop App – C#.NET, WinAPI

Dec. 2025 – Present

- Building a virtual desktop manager in C#.NET, organizing windows in up to 4+ concurrent workspaces via WinAPI.
- Developing a polling-based window tracker using native Win32, enabling real-time updates with 500 ms latency.
- Implementing clean architecture, isolating Win32 dependencies for OS-resilient, cross-platform extensibility.

CodePath Web Project

College Park, MD

Website – JavaScript, HTML, CSS

Sep. – Nov. 2023

- Developed a dynamic landing page on immigration justice using JavaScript DOM manipulation and CSS styling.
- Enhanced user experience using event-driven functions and CSS animations, achieving cross-platform functionality.
- Architected responsive layouts using CSS Grid and Flexbox, implementing carousels and navigation elements.

Over Surface Vehicle Project

College Park, MD

Electronics Team Lead

Feb. – May 2023

- Constructed an electrical system with 2 sensors, DC motors, and actuators, enabling autonomous navigation.
- Calibrated the mission-critical material detection system to an accuracy of 90% using Arduino IDE in 3 test cycles.

LEADERSHIP EXPERIENCE

University of Maryland – College Park

College Park, MD

Resident Assistant

Aug. 2024 – Present

- Organized 5+ floor programs on mental health and community engagement for 70+ residents with 20% attendance.

Theta Tau Professional Co-Ed Engineering Fraternity

College Park, MD

New Member Educator, Professional Development Chair

May 2024 – May 2025

- Mentored 18 new members through professional development workshops and weekly team-building activities.
- Organized 5+ company info sessions, hosted interview prep, and resume reviews for 80+ members, resulting in 10+ offers.

EXTRACURRICULARS

ColorStack, Fellow (2023-Present) | National Society of Black Engineers, Member (2023-Present)
