EDUCATION

Boston University, College of Engineering

Boston, MA

B.S. in Computer Engineering

Expected May 2026

- **GPA:** 3.4/4.0
- **Associations:** Institute of Electrical and Electronic Engineers, Korean Student Association
- **Relevant Coursework:** Electric Circuits, Engineering Mechanics I, Engineering Design, Programming for Engineers, Discrete Math, Signals and Systems, Intro to Software Engineer, Probability and Statistics for Engineers, Introduction to Operating Systems, Computer Organization, Applied Algorithm for Engineers

PROFESSIONAL EXPERIENCE

Hyundai Transys

West Point, GA

Software Engineer Intern

May 2025 - August 2025

- Evaluated and debugged seat software for Genesis vehicles, identifying and resolving 15+ critical bugs, ensuring 100% compliance with functional requirements.
- Collaborated cross-functionally with engineers to enhance testing efficiency, reducing validation time by 10%.

DAS North America

Montgomery, AL

Manufacture Production Line Manager

October 2024 - December 2024

- Supervised a team of 12+ production workers, ensuring adherence to safety, compliance, and production standards.
- Detected and corrected structural errors in Hyundai car seats, reducing defect rate by 18% and improving assembly line throughput.

Mobase Electronics

Montgomery, AL

Quality Assurance Engineer Intern

May 2023 - August 2023

- Conducted detailed inspections of 5,000+ KIA Telluride paddle shifters and smart keys, ensuring compliance with ISO and automotive industry quality standards.
- Diagnosed, lubricated, and reassembled malfunctioning components, restoring functionality in 95% of defective units, directly supporting production goals.

PROJECTS & EXTRACURRICULARS

Real Time CAN Bus Data Logger

Boston, MA

(Embedded C, STM32, UART/SPI, SD, Python)

September 2024 - May 2025

- Implemented interrupt-driven CAN bus frame capture at 500 kbps using ring buffers, logging data to a FAT32 SD card at 100 Hz with 0% packet loss, ensuring reliable automotive data acquisition.
- Developed a Python-based parser and visualizer to decode CAN frames, plot real-time signals, and enable live serial telemetry for bench testing and validation.

Employment Zone LLC

Montgomery, AL

Staffing Agency Manager

May 2024 - September 2024

- Coordinated end-to-end recruiting cycle for light-industrial/manufacturing roles, including sourcing, phone screening, interview scheduling, and onboarding, reducing average time-to-fill on priority requisitions by 20%.
- Built and maintained candidate pipelines through job boards, referrals, and direct outreach, ensuring a consistent flow of qualified applicants for high-volume hiring needs.

SKILLS

Programming: Python, Java, C, C++, MATLAB, HTML/CSS, Javascript
Frameworks: Flask, Django, FastAPI
Tools: Github, git, Figma, Microsoft Office Suite (Excel)
Languages: English (Native), Korean (Native)
