EXPERIENCE

Porsche Engineering North America (with AMEC Consulting LLC.)

Carson, CA

Software Engineer in Test and Scrum Master

January 2022 – May 2023

- ISTQB-Certified Software Quality Assurance Engineer for Navigation and Connectivity features of car's infotainment system
- Conducted and advised sprint ceremonies and acting Jira manager
- Achieved 100% software testing completion per week using Postman, Python, JavaScript, shell scripting, and proprietary tracing tools
- Fixed and maintained important testing hardware, allowing testing teams to catch up with 3 months' worth of backlog and integrated Scrum Agile Framework environment for LA Testing Team

Kargo Technologies

Jakarta, Indonesia

Program Manager Intern

June 2019 – August 2019

- Assisted head program manager with executing and planning sprint ceremonies including but not limited to daily stand-up meetings and retrospectives
- Advised project managers with sprint reviews and planning, and product managers with writing Product Requirement documents
- Managed Jira and Confluence of engineering teams and created an adaptive Scrum Poker system for all engineering teams
- Directly reported to CTO and head program manager regarding the progress of each engineering team
- Contributed to resolving critical P0 bug, helping prevent \$1M in losses
