About Me

Aspiring to a role in Power BI and Data Analytics with approximately 3 years of experience. I possess strong proficiency in Excel, SQL, Python, Tableau, Power BI, and DAX, along with a solid foundation in data modeling. I specialize in developing interactive dashboards and self-service BI solutions that drive actionable insights and informed decision-making. My background also includes experience in Quality Control within the dairy industry (non-IT), ensuring product safety and quality throughout the production lifecycle.

Skills & Abilities

Tools & Languages

- Python (Pandas, NumPy, Matplotlib)
- SQL (PostgreSQL)
- Power BI
- Tableau
- Git/GitHub
- Agile Methodology

Data Analytics

- Data Cleaning
- Dashboarding
- Report Generation
- Exploratory Data Analysis (EDA)
- Excel
- Kanban Boards
- Excel - Pivot tables, LOOKUPS
- Data Management

Quality Assurance – Non-IT

- Chemical Testing
 - Lab Standardization
 - QA Reporting
 - Water Quality Testing
 - Packaging QA
-

Work Experience

DATA ANALYST APPRENTICE | NASHVILLE SOFTWARE SCHOOL | MAY 2025 – PRESENT

Completed an intensive, full-time Data Analytics bootcamp with a strong emphasis on analytical problem-solving and core data analytics principles. Gained hands-on experience working with real-world datasets and presented project insights to community stakeholders. Key skills and tools utilized include

- Data analysis in Microsoft Excel, leveraging pivot tables, lookups, and PowerPivot for external data connections
- Dashboard development and deployment using Tableau and Power BI
- Data wrangling and exploratory data analysis using Python (Pandas)
- Data visualization with Matplotlib and Seaborn
- Data acquisition through APIs and web scraping
- Geospatial data analysis using GeoPandas and Folium
- Database querying and analysis using PostgreSQL and SQL
- Version control with Git/GitHub
- Project management using GitHub project boards and issue tracking

PROJECTS

- Capstone project
 - [Air Quality Index \(AQI\) Analysis and Population Growth](#)
 - Analyzed AQI trends (2019–2024) across Tennessee and neighboring states to study temporal, seasonal, and demographic patterns in air quality.
 - Collected and cleaned AQI, population, and density data (2019–2024) using Python (Pandas, API integration).
 - Engineered time-based features and categorized AQI levels for trend and seasonal analysis.
 - Designed interactive Power BI dashboards for city, regional, and demographic comparisons.
 - Performed correlation analysis between AQI, population, density, and area, highlighting weak demographic influence vs. stronger industrial/geographic factors.
 - Delivered insights on COVID-19 impact, seasonal pollution peaks, and overall Good–Moderate AQI levels.
- POWER BI
 - [Electric Vehicle Specification Analysis Dashboard](#)
 - Analyzed the top 10 high-speed EV brands across multiple countries using the 2025 Kaggle dataset. Defined key performance indicators (KPIs) such as average electric range, battery capacity, acceleration, and model count. Utilized DAX, drilldowns, and interactive filters to create segment-wise dashboards by car body type and model.
- TABLEAU
 - [Amazon Sales Report Dashboard](#)
 - Built interactive dashboards to analyze Amazon sales by region, country, and sales channel. Defined and tracked KPIs such as total profit, revenue, average shipment days, and cost per shipment. Visualized yearly order trends and order fulfillment by priority to support data-driven decision-making.

JUNIOR QUALITY CONTROL & WATER ANALYST | CREAMLINE DAIRY PRODUCTS LTD (JERSEY) | MAY 2010 – DEC 2012

Quality Control Analyst – Dairy Industry

- Performed chemical testing on raw, in-process, and finished dairy products to ensure quality and meet regulations.
- Shared daily lab results and QA updates with management for timely actions.
- Standardized lab procedures to improve the accuracy and consistency of test results.
- Checked the quality of packaging materials and chemical supplies and prepared related reports.
- Monitored water used in production and tested wastewater to meet environmental standards

Education & Certifications

- **DATA ANALYST CERTIFICATION** | NASHVILLE SOFTWARE SCHOOL DDA16 | TO BE COMPLETED BY AUG 2025
- **MASTERS IN BIOCHEMISTRY** | DR. L.B. P.G COLLEGE, VISHAKAPATNAM, AP, INDIA | MAY 2009
- **BACHELOR OF SCIENCE** | S.V.K.P & DR.K.S. RAJU ARTS & SCIENCE COLLEGE, PENUGONDA, AP, INDIA | MAY 2007
