SUMMARY

Oklahoma City, OK • jyothivelagala151@gmail.com • 918-204-2011

-
- Around 5 years of experience as a Data Analyst, specializing in data collection, cleaning, validation, statistical analysis, and performance reporting to support organizational decision-making.
 - Led end-to-end data analysis projects by collecting, cleaning, validating, and transforming raw datasets into actionable insights that supported departmental decision-making and performance improvement.
 - Designed and built interactive dashboards, reports, and visualization tools using statistical and BI software, enabling managers to monitor key performance metrics and operational trends.
 - Partnered with cross-functional stakeholders to identify business problems, define analytical requirements, and develop performance measurement frameworks aligned to organizational goals.
 - Prepared and delivered clear presentations, written reports, and data summaries for leadership and end users, effectively communicating findings, trends, and recommendations.
 - Conducted industry and process research to benchmark against leading organizations, supported process improvement initiatives, and maintained databases, documentation, and system updates across multiple projects.

PROFESSIONAL EXPERIENCE

Hartford Financial Services Group, OK

AUG 2022 - Current

Data Analyst

- Analyzed, cleaned, and manipulated complex datasets using SQL and BI tools to support departmental decision-making.
- Developed and maintained interactive dashboards for leadership using Power BI/Tableau, improving visibility of KPIs across programs.
- Collected, compiled, cleaned, and analyzed large datasets to support department-wide performance reporting.
- Identified business problems by collaborating with stakeholders and translating objectives into analytical requirements.
- Developed meaningful reports and dashboards in Power BI to visualize KPIs and trends, improving data-driven insights.
- Created statistical and graphical visualizations to communicate trends, relationships, and performance metrics.
- Conducted validation, testing, and quality checks on data outputs to ensure accuracy and reliability.
- Delivered oral and written presentations summarizing key analytical findings for management and business users.
- Maintained an RTM to trace analytical and functional requirements across the development lifecycle.
- Participated in project status meetings and worked with subject matter experts to address data issues.
- Researched industry standards and benchmarking data to support departmental analysis and recommendations.

Macro Software Solutions, India

OCT 2020 – Dec 2021

Data Analyst

- Gathered and organized business requirements through interviews, workshops, and workflow analysis.
- Processed and cleaned raw datasets using SQL to prepare them for analytical modeling and reporting.
- Conducted qualitative and quantitative analysis to identify operational gaps and recommend improvements.
- Interpreted quantitative and qualitative data to identify trends, issues, and actionable insights for stakeholders.
- Developed reports, dashboards, and visualization outputs to support departmental performance tracking.
- Supported UAT by validating analytical outputs, test cases, and ensuring data alignment with business needs.
- Created As-Is and To-Be processes flow to document analytical workflows and identify process optimization opportunities.
- Provided training to teams on newly introduced reports, dashboards, and analytical tools.
- Collaborated with cross-functional teams to communicate analytical specifications and enhance data accuracy.

SKILLS

-
- **Methodologies:** SDLC, Agile/Scrum, Waterfall
 - **Documentation:** FRD, BRD, SRS
 - **Project Management Tools:** MS Project, MS SharePoint, JIRA, Asana, Trello
 - **Visualization Tools:** Tableau, Power BI, MS Excel
 - **Analysis Skills:** Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis, Budget Analysis, KPI Management, Risk Identification
 - **Database:** MySQL, SQL Server
 - **Business Skills:** Microsoft Visio, JAD, Rational ClearQuest, RTM, UAT
 - **Operating System:** Windows, Linux, MacOS

EDUCATION

Master of Science in Engineering

Oklahoma Christian University

Bachelor of Technology - Petroleum

Jawaharlal Nehru Technological University

Apr 2023

Edmond, Oklahoma

July 2021

Kakinada, India
