

KALKEDAN EYERUSALEM

Software Engineer | Full Stack Developer

📍 Oklahoma City, OK

📞 (405) 738-2138

✉️ kaliararso@gmail.com

📄 PROFESSIONAL SUMMARY

Full-stack Software Engineer experienced in building scalable, production-grade web and mobile applications. Skilled in Angular, React Native, Node.js, and Firebase, with a proven track record in delivering full-stack features in Agile teams. Passionate about creating user-centric, impactful solutions that solve real-world problems.

📄 CORE COMPETENCIES

- Web & Mobile Development
- Full Stack Engineering
- RESTful APIs
- Firebase & SQL
- Agile/Scrum Methodology
- CI/CD with Azure DevOps
- Unit Testing & Debugging
- UX/UI Collaboration

📄 TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, Java, SQL, HTML, CSS

Frontend: Angular, React, React Native, Vue.js

Backend: Node.js (Express), ASP.NET MVC, Web API

Database: Firebase Firestore, MySQL, MS SQL Server

Tools: Git, Azure DevOps, Visual Studio, VS Code, Eclipse

Other: Firebase Auth, Hosting, MVC, Agile, CI/CD

📄 WORK EXPERIENCE

Software Engineer

Oklahoma Blood Institute – Oklahoma City, OK

July 2022 – Present

- Developed full-stack features for impactful healthcare apps like Thank the Donor, TicTac Trivia, and Donable.
- Built and maintained scalable web and mobile interfaces using Angular, React Native, and TypeScript.
- Designed and consumed RESTful APIs with Node.js, integrating with MySQL and Firebase databases.
- Participated in Agile sprints, daily standups, and code reviews to ensure timely and high-quality delivery.

Software Developer

Long Wave Inc – Oklahoma City, OK

Jan 2022 – Jul 2022

- Developed, tested, and debugged software for aircraft trainer systems using C++ and Java.

- Provided code development and debugging support for medium to large simulation projects.
- Collaborated with clients and cross-functional teams to define requirements, resolve issues, and deliver customer-focused solutions.
- Planned and prioritized tasks to meet project deadlines while maintaining clear documentation.

Software Development Intern

Contango Oil Company – Oklahoma City, OK

Dec 2020 – Dec 2021

- Built an internal Project Tracker Application to manage project portfolios, priorities, and statuses.
- Designed database tables and relationships in MS SQL Server and implemented RESTful APIs using Entity Framework Core.
- Developed a responsive MVC web interface leveraging DevExtreme components and used Azure DevOps for planning and deployment.

PROFESSIONAL PROJECTS

Thank the Donor – Full Stack Developer

Angular, Node.js, MySQL, Azure DevOps

- Contributed to both the desktop curator application and the recipient-facing PWA.
- Built features to allow curators to review, approve, and distribute appreciation messages to donors and stakeholders.
- Created scalable REST APIs and ensured security, validation, and seamless integration across platforms.

TicTac Trivia – Full Stack Developer

Angular, Firebase (Auth, Firestore, Hosting)

- Led development on both the admin dashboard and real-time quiz game interface.
- Built secure role-based access, live game logic, leaderboard tracking, and user-facing gameplay with animations.
- Deployed application via Firebase Hosting and maintained real-time sync with Firestore.

Donable – Full Stack Developer

React Native, React (TypeScript), Node.js, MySQL

- Developed a platform to match recruiters with blood donors based on type, location, and availability.
- Built the mobile app for donors/recruiters and the admin dashboard using TypeScript and REST APIs.
- Integrated geolocation, secure auth, and end-to-end data workflows using MySQL.

Release Handle Device Simulation – Software Developer

GL Studio, COM Interfaces

Long Wave Inc – Oklahoma City, OK | Jan 2023 – May 2023

- Designed and prototyped a simulation for aircraft release handle devices using GL Studio.
- Gathered requirements from clients and engineers to model device functionality and create accurate 3D representations.
- Implemented Component Object Model (COM) interfaces to transmit simulation messages to system engineers.

EDUCATION

M.S. in Computer Science

Oklahoma Christian University — GPA: 3.5/4.0

B.S. in Computer Science

Oklahoma Christian University — GPA: 3.5/4.0
