

Kalpesh Patil (Business Analyst)

Tempe, AZ, 85281 | P: (480) 309-3517 | mrkalpesh1010@gmail.com | [linkedin.com/in/kalpeshpatil369/](https://www.linkedin.com/in/kalpeshpatil369/)

SUMMARY

Analytics professional with 3+ years in data analytics, process optimization, and BI for banking & insurance. Skilled in SQL, Python, R, Power BI, and AWS. Refined financial workflows, cutting processing time by 45% across 500+ reports. Developed predictive risk models, boosting fraud detection by 30% and reducing \$20M+ in financial losses through data-driven forecasting.

SKILLS

Data Analytics & BI: SQL, Python, Excel, Tableau, Power BI, ETL, Data Warehousing, Data Modeling

Business Analysis Tools & Technologies: SharePoint, Jira, ServiceNow, MS Visio, MS Project, Java, HTML5, CSS, React, Angular

Software Development & Cloud: Agile SDLC, DevOps, AWS, Google Cloud (GCP), API Integration, Azure DevOps

Database & Security: Relational Databases (MySQL, PostgreSQL), NoSQL (MongoDB), Security Remediation

Project Management & Compliance: Agile, Process Optimization, Risk Management, SOX Compliance

Technical Documentation & Collaboration: Business Requirement Analysis, Functional Specifications, Use Case Development

PROJECT EXPERIENCE

AI-Driven Credit Risk & Fraud Detection

Oct 2024 – Dec 2024

- Designed ML-based credit risk model using SAS (XGBoost) improving accuracy by 40% and cutting fraud losses by \$10M.
- Formulated real-time risk dashboards in Power BI reducing fraud detection time by 50% and ensuring regulatory compliance.

Basel III Capital Adequacy & Compliance Automation

Aug 2024 – Sep 2024

- Optimized capital adequacy reporting with automated dashboards (Power BI, SQL, RPA), minimizing reporting time by 45%.
- Enhanced risk assessment models using Monte Carlo simulations, improving capital reserve accuracy by 35%.

PROFESSIONAL EXPERIENCE

Business Analyst, Cognizant, Pune, India

Jun 2023 – Jul 2024

- Engineered predictive credit risk models using Python, SAS, and machine learning (XGBoost, Random Forest), increasing risk assessment accuracy by 40% and minimizing loan defaults for banking and insurance clients.
- Implemented AI-powered fraud detection (Autoencoders, Isolation Forest, Graph-Based Fraud Detection), reducing fraud-related financial losses by \$20M annually and enhancing compliance with financial regulations (AML, KYC, Basel III).
- Orchestrated claims processing and underwriting workflows with NLP, RPA (UiPath, Blue Prism), and real-time analytics (Tableau, Power BI), minimizing processing time by 30% and lowering manual workload by 40%.

Data Analyst, Cognizant, Pune, India

Apr 2022 – May 2023

- Revamped credit risk assessment models by implementing predictive analytics and machine learning techniques, reducing loan default rates by 15% while maintaining a 95% approval rate, enhancing portfolio profitability.
- Orchestrated fraud detection initiatives by deploying AI-driven anomaly detection and real-time transaction monitoring, increasing fraud detection accuracy by 20% and reducing false positives by 30%, improving security and customer trust.
- Spearheaded customer segmentation models using clustering and K-Means techniques, Increased marketing conversion rates by 18% and increasing credit card spending by 30%, driving revenue growth.

Programmer Analyst, Cognizant, Pune, India

Apr 2021 – Mar 2022

- Architected Python-based anomaly detection algorithms using Scikit-learn, analyzing 8M+ transactions to identify 2,400+ suspicious patterns, reducing fraudulent claims by 37% and saving \$6.1M annually in payouts.
- Streamlined Basel III capital adequacy reporting for financial institutions via Power BI dashboards, cutting manual reconciliation time by 45% and achieving 100% audit compliance across 12 regulatory submissions.

EDUCATION

Arizona State University, Tempe, Arizona

Aug 2024 – May 2025

Master of Science, Business Analytics | GPA: 3.8/4.0

Pune University, Pune, India

Aug 2017 – May 2020

Bachelor of Engineering Degree, Mechanical Engineering | GPA: 3.88/4.0

CERTIFICATION

- Google Cloud Certified: Professional Database Engineer (Issued: Dec 2024)
- AWS Certified Cloud Practitioner (Issued: Nov 2024)
- Salesforce Certified Business Analyst (Issued: May 2024)
- Microsoft Certified: Power BI Data Analyst Associate (Issued: Mar 2024)
- Google Cloud Certified: Professional Data Engineer (Issued: Feb 2024)
