

KAMALAKAR BABU KORADALA

BUSINESS ANALYST

Location: Birmingham, AL USA || **Email:** kbkoradala@gmail.com || **Ph. No.:** (908) 641-9528 || [Linked In:](#)

SUMMARY

- 5+ years of experience as a Business Analyst, specializing in process optimization, data-driven insights, and project management across healthcare, IT, and consulting domains.
- Strong expertise in requirements gathering, conducting JAD sessions, and documenting business needs through BRDs, FRDs, and user stories to drive project success and align with organizational goals.
- Extensive experience in utilizing Agile, SDLC, Waterfall, and Lean Six Sigma methodologies to manage projects from initiation to delivery, ensuring timely and within-budget execution.
- Proficient in data analysis using tools like Excel, SQL, and Python, with a focus on transforming complex data into actionable insights that improve decision-making and business processes.
- Expertise in implementing ERP systems (SAP, Salesforce) and CRM solutions, including managing end-to-end integrations, ensuring seamless data flow, and improving operational efficiencies.
- Skilled in creating interactive dashboards using Tableau and Power BI to monitor key business metrics, enhance reporting capabilities, and drive strategic initiatives.
- Adept in performing gap analysis, risk assessments, and impact analysis to identify improvement areas and mitigate potential issues, ensuring smooth project execution and post-implementation success.
- Experienced in quality assurance (QA), user acceptance testing (UAT), and process mapping, ensuring high-quality deliverables and adherence to business requirements.

SKILLS

Data Analysis:	Excel, SQL, Python, R, SAS
Methodology:	SDLC, Agile, Waterfall, Kanban, Lean Six Sigma
Documentations:	BRD, FRD, SRS, BPMN, User stories, Use Cases, Test Plan, User Guide
Project Management Tools:	Jira, Confluence, Trello, MS Project, MS Excel, MS SharePoint, Primavera
Cloud Technologies:	Amazon Web Services (AWS), Google Cloud Platform (GCP)
Visualization Tools:	Tableau, Power BI, QlikView
UML and prototyping Tools:	MS Visio, Smart Draw, IBM Rational Rose, Balsamiq mock-ups, Sketch
Business Analysis	Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis
ERP Planning & CRM:	SAP, MS Dynamics Nav, Salesforce, HubSpot
Technical Skills:	KPI, User Acceptance Testing (UAT), Alteryx, Requirement gathering, Google Analytics, Data Analysis, MS Visio, Joint Application Development (JAD), MS Office, User Story creation, Software development & testing, Data Modelling, Database Knowledge, Business Intelligence (BI) Tools, Process Mapping, User Experience (UX) Understanding, Quality Assurance (QA) Knowledge, Prototyping
Soft Skills:	Business Intelligence, Stakeholder Engagement, Requirements Gathering, Time management, Leadership, and management, Problem-solving, Negotiation, Decision-Making, Documentation, and Presentation, Verbal communication
Operating System:	Windows, Linux, Mac OS

PROFESSIONAL EXPERIENCE

Business Analyst | Optum, AL

Jan 2024 – Present

- Led the design and implementation of a Healthcare Data Integration Platform, consolidating data from 10+ healthcare providers and integrating EHR/EMR systems to ensure seamless data exchange, interoperability, and compliance with HL7 and FHIR standards.
- Conducted Joint Application Development (JAD) sessions with stakeholders to gather business requirements, ensuring alignment with project objectives and documenting them in BRD and FRD, reducing requirement clarification time.
- Designed a scalable data model for seamless integration of disparate data sources, leveraging SAP for data storage and Alteryx for data transformation, improving data flow efficiency by 30%.

- Led data governance efforts, performing regular data audits to ensure data quality and integrity, reducing data inconsistencies by 25% and improving overall platform reliability.
- Built interactive Tableau dashboards to track key performance metrics, such as patient demographics and care outcomes, reducing manual reporting time by 40% and providing actionable insights for stakeholders.
- Managed the project using Agile methodology with JIRA, overseeing sprint planning, task tracking, and milestone delivery, ensuring on-time delivery of all project phases.
- Developed and executed UAT scripts to validate functionality, identifying and resolving critical issues, improving platform stability by 15% prior to production deployment.
- Conducted detailed risk analysis and impact assessments, identifying potential data integration challenges and mitigating them, ensuring smooth deployment and system adoption.

Business Analyst | Deloitte, India

Apr 2020 – Dec 2022

- Led JAD (Joint Application Development) sessions with 20+ stakeholders, including business users, IT teams, and project sponsors, to elicit and document detailed business requirements for the Salesforce CRM implementation.
- Created comprehensive Business Requirement Documents (BRD) and Functional Requirement Documents (FRD), outlining over 50 functional requirements, and ensuring they were aligned with business goals for effective CRM migration.
- Used MS Visio to map current (AS-IS) and future (TO-BE) customer journeys, identifying key pain points and automation opportunities, which resulted in a 30% improvement in customer satisfaction scores post-implementation.
- Conducted GAP analysis by comparing the existing manual processes with Salesforce CRM's automated workflows, identifying 15 areas for process improvement, and optimizing customer service workflows by 20%.
- Documented process flows using BPMN and MS Visio, streamlining 10+ core banking processes such as customer onboarding and loan application, reducing redundancies by 25%.
- Utilized Balsamiq Mockups to create low-fidelity prototypes, collecting feedback from stakeholders and refining the user interface to ensure alignment with business needs and usability standards.
- Defined 150+ UAT test cases and managed the execution in Jira, ensuring full test coverage of all CRM functionalities. Achieved 95% test success rate, addressing all critical issues before the go-live phase.
- Defined 10+ key performance indicators (KPIs) to track CRM adoption, customer engagement, and sales conversion rates post-implementation. Collaborated with developers to create Salesforce-based real-time dashboards, providing insights to senior leadership.
- Conducted risk assessments and mitigated potential data privacy issues related to GDPR compliance, ensuring secure handling of sensitive customer data during the migration process.
- Managed project timelines, resources, and deliverables using Jira and MS Project, ensuring the project was delivered 2 weeks ahead of schedule, under budget, with a 98% on-time task completion rate.

Business Analyst | HCLTech, India

Feb 2018 – Mar 2020

- Conducted detailed requirements gathering with cross-functional stakeholders, defining key metrics for the marketing campaign using Google Analytics and MS Excel. Analyzed 100,000+ customer profiles for targeted marketing optimization.
- Utilized Python (pandas, NumPy) for data extraction, cleaning, and transformation from Google Analytics and CRM systems, handling 5 million+ records to ensure data consistency and integrity for analysis.
- Performed segmentation analysis using customer demographics and engagement data from Google Analytics, identifying 3 distinct customer segments with an increase in targeted campaign response by 20%.
- Defined and tracked 10+ KPIs (including CLV and acquisition costs) through Power BI, ensuring alignment with business goals and enhancing campaign performance by 25%.
- Created Power BI dashboards for real-time visualization of key marketing metrics (CTR, conversion rates), reducing manual reporting time by 40% and streamlining decision-making.
- Performed risk analysis to assess potential financial losses and cost-benefit analysis, resulting in a 15% reduction in marketing expenses while maintaining campaign effectiveness.
- Enhanced campaign ROI by 25%, reduced marketing expenses by 15%, and optimized reporting processes, leading to a 40% faster decision-making.

EDUCATION

Master of Science in Business Analytics - University of North Texas, Denton, TX, USA.

Master of Computer Application - K L E F Deemed to Be University, Andhra Pradesh, India.
