Professional Summary: Highly motivated and dependable public health graduate with 16+ years of customer service experience and a strong team-oriented mindset. With a passion for supporting healthcare operations and advancing public health goals. Seeking an entry-level position in epidemiology and/or research analysis to apply knowledge and support public health goals.

EDUCATION

Temple University, Philadelphia, PA
Master of Public Health, Epidemiology
GPA: 3.91 | *Graduated with Honors*

Graduation: May 2025

Stockton University, Galloway, NJ
Bachelor of Science, Health Science

Graduation: May 2022

SKILLS

Professional Skills - Data Analytics | Project Management | Mixed-Methods Research (Quantitative & Qualitative Integration) | Global vaccine research | Presentations | Literature Reviews | Regression Modeling | Survey Design | Data Visualization | Customer Service | Safety Advocacy | Team Leadership | Problem Solving

Technical Skills - SAS | R Studio | NVivo | Canva | DeDoose | Microsoft Office | Zoom | Teams

FIELDWORK EXPERIENCE

Public Health Internship Program — Hepatitis B Foundation - Doylestown, PA | Aug 2024 – Aug 2025

- Conducted **literature reviews** and database searches to support **global vaccine research**.
- Collaborated on a four-person team for a mixed-methods global study on COVID-19 vaccine perspectives among people living with liver disease and diverse communities.
- **Managed** the cleaning of 15 qualitative interview transcripts for **thematic analysis**.
- **Developed** two distinct codebooks and coded 27 transcripts using **NVivo**.
- **Performed coding** comparison queries to assess inter-rater reliability (Kappa).
- Facilitated resolution of coding discrepancies through team meetings.
- Collaborated on the development of three distinct abstracts documenting project results (under review).
- Took meeting minutes and contributed to project documentation.

FIELDWORK RESEARCH PROJECT & CONFERENCE PRESENTATION

Final Project Research Presentation (Part of Internship / Academic Experience)

Exploring How Various Perceived Barriers Associate with Willingness to Participate in Hepatitis B Clinical Trials Among People Living with Hepatitis B in Africa

- Supported research on barriers to clinical trial participation among African people living with hepatitis B.
- **Evaluated** and researched clinical data on hepatitis B clinical trials conducted in Africa.
- **Cleaned and analyzed** a retrospective quantitative dataset (n=848) using **SAS**.
- **Analyzed data** from 321 African adults with hepatitis B using **chi-square tests and logistic regression**.
- **Presented** findings to public health team in a clear, accessible format to support data-driven decision-making.

Conference Presentation

Conference of Liver Disease in Africa (COLDA), Ghana, Africa | Sep 2025

Jarvis, K., Borondy-Jenkins, F., Ibrahim, Y., Okinedo, P.O., Palumbo, A. & Cohen, C. (2025). Willingness to Participate in Hepatitis B Clinical Trials Among People Living with Hepatitis B in Africa: Perceived Barriers and Gender. [Abstract from Conference of Liver Disease in Africa].

- **Authored** an abstract presenting expanded findings from final research project on gender disparities in clinical trial participation willingness among people living with hepatitis B in African countries.
- **Managed** team of co-authors to ensure feedback was provided within designated timeline.
- **Created** a poster synthesizing key findings into a visually engaging format, highlighting gender-based barriers and culturally informed recommendations for inclusive trial design.
- Highlighted key predictors of willingness, including physician continuity and prior trial exposure.
- Advocated for gender-sensitive recruitment strategies to improve equity in global health research.

WORK EXPERIENCE

Amazon Sortation Center

Swedesboro, NJ | 2021 – Present

Scanner/Sorter | Safety Committee Member (Volunteer Role)

- Promoted workplace **safety** by identifying potential hazards, facilitating peer feedback, and contributing to actionable solutions through committee **collaboration**.
- Served as a liaison between frontline staff and management, **advocating** for safer workflows and inclusive **communication** practices.
- Fostered a **culture** of accountability and **teamwork** by **mentoring** new hires and modeling safe, efficient sorting practices.

ShopRite

Vineland, NJ | 2005 – 2021

Customer Service

- Delivered professional **communication** to provide quality **customer service**.
- **Resolved** customer concerns with efficiency and diplomacy, balancing individual needs with store policies in a fast-paced, **team-oriented** environment.
- Trained and **mentored** new staff on register and lottery operations, and **customer engagement strategies**.
- **Collaborated** across departments to streamline workflows, improve customer satisfaction, and maintain a positive store atmosphere.
- Honed communication, conflict resolution, and **multitasking** skills that continue to inform public-facing and equity-driven work.
