🧠 SKILLS

Technical :

SQL | Excel | Power BI | Power Query | Power Pivot | Data Modeling | ETL | Power Automate | Power Apps | Looker | Tableau | Python | Web Scrabbing | API Integration | Agile methodology

Soft Skills :

Problem-solving | Critical thinking | Attention to detail | Time management | Communication | Adaptability | Analytical thinking | English Proficiency: Fluent (Professional Working Proficiency)

PROFESSIONAL EXPERIENCE

Upwork [↗](#) Freelancer

June 2025 – present

- Completed **web scraping** projects to extract and organize large datasets, delivering actionable insights for clients.
- Designed dynamic **Excel solutions** with **advanced formulas, conditional formatting**, and automated workflows to improve data analysis and reporting efficiency.
- Earned **Rising Talent Badge** by demonstrating exceptional accuracy, problem-solving skills, and timely project delivery, building trust and satisfaction with clients.

Minapharm Pharmaceuticals [↗](#) QA Specialist

March 2022 – present

- **Optimized** the “**First Pass Quality**” **KPI spreadsheet** to enhance **error analysis** and **production efficiency**, demonstrating expertise in **deviation handling, change control, risk assessments**, and **SOP development** to uphold quality standards.
- Gained valuable experience with the **Oracle System** by managing pathways for critical requests and documents, ensuring efficient **handling** and **workflow**.
- Actively **participated** in **internal and external audits**, ensuring compliance with regulatory standards, identifying areas for improvement, and contributing to the successful execution of quality assurance processes.
- **Reviewed** over **1,700 batch records** valued at **\$35 million**, refining expertise in **IPC** and gaining a deep understanding of **cGMP**.

📁 PROJECTS

Analyzeforce Web Traffic [↗](#)

Power BI

Created an invoked column in **Power Query**, leveraging the **OpenStreetMap API** as a source, to derive precise **country coordinates**. Engineered a custom **Python script** process to import **country flags** in **SVG format** into a **CSV file**, seamlessly joining this data with the country column to enhance the **country slicer visual** with rich, interactive graphics. **Implemented** a **map chart** to effectively visualize **key metrics** across countries.

Customer Service KPIs [↗](#)

Looker Studio

Developed an interactive dashboard to analyze customer service KPIs, including Answered Calls, Answer Speed, Handle Time, and Satisfaction Scores. Imported and blended multiple **Excel datasets**, utilized **calculated fields** for metrics, and applied **conditional formatting** to highlight trends. Integrated **trend lines** to visualize performance over time and identified top and bottom performers for actionable insights.

KPI Dashboard [↗](#)

Excel

Redesigned a dynamic **Excel dashboard** to analyze production errors and deviations, optimizing quality assurance workflows for manufacturing operations. Utilized **advanced formulas, PivotTables, and data visualization** to categorize error types, automate performance scoring, and benchmark departmental efficiency. Highlighted root causes of defects, reducing deviations by 15% and aligning processes with QA standards.

📄 CERTIFICATES

Data Analysis: [↗](#) ALX | Explore AI

SQL Associate: [↗](#) Datacamp

Advanced Dax: [↗](#) Maven Analytics

BI and Analytics with Looker: [↗](#) Google

🎓 EDUCATION

Cairo University

October 2015 – August 2020

Graduated with cumulative grade percentage of 80.95%
