SPECIFIC ACCOMPLISHMENTS

Construction Administration: Client Retention/Project Completion-Coordinated completion of project upon the exit of Project Architect. Diplomatic relations with our client (Contractor) and Contractors' client was essential. Executed construction administration arbitrating, collaborating, and corresponding for our client while maintaining a positive open relationship with the Contractors' client. Won 160K square foot contract.

Training: Teacher/Mentor/Educational Leader - Developed and launched Microstation training for new employees. Prepared and organized class curriculum, evaluated current staff knowledge and recommended educational requirements. Set goals for class achievement and facilitated the education of each student. Accelerated CAD skills, expediting project completion time and increasing production by 50%.

Materials/Product Research: Evaluated discoveries made during construction of a \$680K renovation. Collected data, developed several options, reviewed information with consultants for correct and accurate implementation, verified building department requirements and presented options to client. Saved the client 20% of project cost.

Building Location Planning: Assessed and clarified client requirements to determine best new location fit in a limited time frame. Blocking, stacking and space planning in five different buildings coordinating department adjacencies, establishing public/private conferencing/networking areas on five floors. Illustrated and streamlined drawings for client review and determination of space resulting in a 200K square foot interior design project.

Versatility: Have extensive knowledge in Revit and work with AutoCad to complete thorough construction document sets from Schematic Design to completion of project. Working knowledge of Microstation.

EXPERIENCE

Temp Design Technician

TechniPower

October 2013 to Present

- Design Tech Services for Walker Parking Denver Colorado
- Provide Revit/BIM experience to complete Structural and Architectural models
