PROJECTS

University of California Berkeley

August 2024 - June 2025, San Francisco, CA

Data Scientist, [Practicum Project](#)

- Designed and deployed an AI-powered chatbot translating natural language into structured search URLs, reducing query errors by 18% and cutting search time by 25% across 5M+ records.
- Built a Tableau KPI dashboard and implemented a real-time query logging pipeline for usage analytics.

Data Analyst, [H&M Global Retail Intelligence Dashboard](#)

March 2025, San Francisco, CA

- Developed SQL-based ETL and Tableau dashboards to analyze inventory distribution, clustering, and replenishment flows across 4,000+ stores, informing staff allocation and product deployment strategies.
- Designed a Tableau dashboard to deliver insights on store-level KPIs and retail footprint density, supporting staffing allocation and product deployment strategies in 50+ cities.

ML Analyst, [Sneaker Market Trend Forecasting](#)

May 2025, San Francisco, CA

- Forecasted seasonal sneaker demand by combining Google Trends signals, Reddit sentiment and polarity scoring to model consumer interest and marketing timing.
- Created a Tableau dashboard to track brand momentum shifts and sentiment-based keyword lift for product launches.

ML Engineer, [Runway at Home Chatbot](#)

June - July 2025, San Francisco, CA

- Identified the need to bridge high-fashion runway trends with accessible, shoppable outfit recommendations and designed chatbot making style forecasts actionable for inventory planning teams.
- Achieved 50+ live user sessions; demonstrated stronger trend-to-product mapping than baseline methods, improving merchandising insights and enhancing engagement.

PROFESSIONAL EXPERIENCE

Retail Operations Lead, Banana Republic

Jan - Mar 2024, San Mateo CA

- Optimized inventory allocation and SKU assortment across categories, aligning stock levels to demand and improving turnover.
- Monitored KPIs, boosted loyalty engagement, leveraged omni-channel strategies to deliver seamless customer experience.

Management Assistant, New York Fashion Week 2023

Feb - Sept 2023, New York NY

- Assisted designers in event management and operations while handling the logistics during pre- and on-event production.

Brand Strategy Intern, Tarun Tahiliani

Sept - Oct 2022, Delhi, India

- Conducted brand surveys and SEO benchmarking for Indian designers, analyzing affiliate campaigns to compare brand visibility.
