

ANUGU KARTISH REDDY

Denton, Texas, 76207, +1469-867-3301, kartish.yf11@gmail.com, www.linkedin.com/in/kartishreddy22

PROFESSIONAL SUMMARY

- Detail-oriented **Business Analytics** graduate with experience in **data analysis**, **predictive modeling**, and **full-stack development** using **Python (Flask)**, **React**, **SQL**, and **Tableau**. Skilled in **database design**, **data visualization**, and **API integration** to deliver data-driven insights. Proficient in **statistical analysis**, **data wrangling**, and building **machine learning models** for business solutions. Adept at collaborating in **Agile** environments and applying cloud technologies (**AWS**, **Azure**) to support analytical and operational objectives.

SKILLS

- Methodologies and Cloud:** Agile (Scrum), SDLC, AWS, Microsoft Azure
- Programming Languages:** Python (NumPy, Pandas, Matplotlib, SciPy, Plotly, TensorFlow, Keras), R Language, SQL, SAS, JavaScript
- Analytical:** Tableau, Power BI, MS Excel, Exploratory Data Analysis, Predictive Modeling, Statistical Analysis, EDA, Business Intelligence, Data Visualization, Qlik Sense, Qlik View, Google Analytics, Looker, Financial Analysis, Data Analytics
- Databases:** MySQL, SQL Server, Snowflake, MongoDB, PostgreSQL
- Tools:** Postman, VS code, Google Suite, Power Query, Alteryx
- Machine Learning Frameworks & Project Management:** TensorFlow, Scikit-learn, Agile, Visio, Lean Six sigma, Confluence, flask, React
- Data Management:** Data Modeling, Data Cleaning, Data Wrangling, Database Normalization, Data Collection, Data mining, Data Reporting
- Other:** Problem Solving, Critical Thinking, Communication Skills, Collaboration, Organizational Skills, Budget Planning

EDUCATION

- Master of Science in Business Analytics** | University of North Texas, Denton, Texas **Aug 2023 – Aug 2025**
- Bachelor's in commerce** | Osmania University, Hyderabad, India **Aug 2019 – Sep 2022**

EXPERIENCE

University of North Texas, Denton, Texas | Student Assistant – Division of Student Affair **Jan 2024 – May 2025**

- Designed and maintained **Power BI** and **Excel dashboards** for daily sales, **budget tracking**, and **financial reporting**, enabling data-driven decision-making across 10+ dining locations.
- Automated reporting workflows by integrating **SQL queries** with **MS Access** validation and looking functions, streamlining data extraction and enhancing reporting accuracy for **budget planning** and **financial analysis**.
- Conducted **data wrangling** and large-scale **data analysis** using **SQL** and **excel** to monitor sales trends, manage royalty supplier reports, and optimize financial oversight.
- Collaborated with cross-departmental teams to improve **operational workflows**, supporting **student recruitment** through interview scheduling, hiring coordination, and onboarding processes.

Manac Infotech Pvt Ltd, Hyderabad, India | Full Stack Python Developer Intern **Nov 2022 – Apr 2023**

- Engineered a Task Management System web application, utilizing **Flask (Python)** for server-side development and **React** for building interactive, user-friendly front-end interfaces, aimed at improving workflow automation.
- Architected and optimized **MySQL** relational databases, executing complex SQL queries and applying **data modeling** and normalization principles to ensure accurate, consistent and high-performance data storage and retrieval.
- Integrated RESTful APIs to enable real-time task tracking and automated reporting, conducting comprehensive testing with **Postman** to ensure seamless communication between front-end and back-end services.
- Collaborated with cross-functional teams in an **Agile (Scrum)** environment, managing sprints, conducting code reviews, and adhering to **SDLC** best practices to ensure timely delivery of high-quality project milestones.

PROJECTS

Predictive Modeling for Water Pump Functionality | University of North Texas **Aug 2023 – Dec 2024**

- Analyzed a real-world dataset from the Tanzanian government to predict water pump functionality by performing **exploratory analysis (EDA)** using **SAS Enterprise Miner**, including outlier detection and missing value imputation to ensure data quality and reliability.
- Developed and validated predictive models such as **Decision Trees**, **Logistic Regression**, and **Random Forests** for classifying water pump statuses, applying best practices in model evaluation, optimization, and classification analysis to improve predictive accuracy.
- Visualized analytical insights through **histograms**, **box plots**, and **correlation heatmaps** to identify key factors affecting water pump performance, while collaborating in an **Agile** environment and utilizing version control tools for team coordination and project delivery.

Data Visualization project on Global Salary Trends | University of North Texas **Jan 2024 – May 2024**

- Evaluated a global salary dataset across job titles, experience levels, company sizes, and geographic locations, performing comprehensive **data cleaning**, **data wrangling**, and **exploratory data analysis (EDA)** to ensure data accuracy and consistency.
- Engineered and implemented interactive dashboards using **Tableau**, integrated bar charts, heat maps, and dynamic filters to deliver actionable data visualizations, identify regional salary disparities, and highlight industry-specific pay gaps.
- Interpreted analytical findings to support strategic workforce planning and compensation benchmarking, collaborating with team members under **Agile (Scrum)** methodologies, while following structure **project management** practices to meet deadline effectively.

LICENSES & CERTIFICATIONS

- AWS Certified Cloud Practitioner** – Amazon Web Services (AWS) **Apr 2025 – Apr 2028**
- Microsoft Azure Data Fundamentals** – Microsoft **Apr 2025**
- IBM Databases and SQL for Data Science with Python** – Coursera **Mar 2025**
- Introduction to Information Technology and AWS Cloud** – Coursera **Mar 2025**
