Java, C/C++, SQL, HTML, JavaScript, R, Git, AWS, Python, Rust, Tableau, Node.js, React.js, Splunk

Certifications

AWS Certified Cloud Practitioner Received Aug 2025

WORK EXPERIENCE

Undergraduate Researcher Aug 2024 – May 2025

Lehigh Blockchain, Lehigh University, Bethlehem, PA

- Engineered a blockchain-based DID registry, enabling secure cross-platform verification.
- Optimized registration logic to increase transaction throughput and scalability.
- Authored developer docs and APIs, reducing integration and onboarding time.

IT Intern

May 2024 – May 2025

Applied Materials, Santa Clara, CA

- Created a Python/SQL dashboard that reduced Lab Ops error detection time.
- Deployed security devices in VMs, cutting policy violations.
- Delivered data insights that lowered recurring lab issues.

Web Development Intern

Jan 2024 – May 2024

Anetac, Remote

- Launched Anetac's website and partner portal, streamlining customer onboarding.
- Applied SEO practices that boosted website traffic and visibility by 20%.

Associate Developer

May 2022 – Aug 2022

Echo Hawks, Lehigh University, Bethlehem, PA

- Built an Amazon Alexa Skill to answer campus navigation queries for 5,000+ students.
- Designed a Python/AWS cloud framework for scalable mapping and data access.

PROJECT EXPERIENCE

Developer Jan 2024 – Dec 2024

Macguyver Tech, Blockchain Security, Remote

- Built a smart contract scanner in Python/JavaScript (Node.js, SQL), boosting detection accuracy by 25%.
- Applied AI/ML with Hugging Face for advanced blockchain security analysis.
- Led Agile sprints with Git to ensure timely project delivery.

Developer

Oct 2023 – Nov 2023

Automated Market Maker, Lehigh University, Bethlehem, PA

- Developed an Ethereum AMM smart contract in Solidity for decentralized token swaps.
- Used Git + Agile practices in a 4-member team to deliver a production-ready prototype.

Developer

Jan 2023 – May 2023

The Buzz, Lehigh University, Bethlehem, PA

- Built a social media app with Java/PostgreSQL backend and React.js frontend, deployed on GCP.
- Implemented CI/CD pipelines in Git, cutting deployment time by 30%.

LEADERSHIP EXPERIENCE

Secretary, Lehigh ACM, Lehigh University May 2023 – May 2024

- Led technical discussions on C++, Python, and Rust, engaging 20+ CS students.
- Managed organizational documents and coordinated strategy meetings for activity planning.

Secretary, Cybersecurity Club, Lehigh University May 2023 – May 2024

- Organized hands-on labs with Splunk and security tools for 20+ members.
- Hosted industry speakers from Accenture and Grant Thornton.
