PROFESSIONAL SUMMARY

Programs & Data Manager with over 5 years of experience using data to guide decisions and improve program quality. I'm passionate about creating systems that make work easier, strengthen programs, and support teams. Skilled in management, analysis, reporting, and process optimization, with a strong background in teaching, curriculum development, and team leadership. Known for being collaborative, organized, and focused on turning insights into meaningful impact. Currently seeking a full-time transition into a Junior Data Analyst role.

SKILLS

Data Analysis	R Programming	Google Looker Studio
Data Cleaning & Preparation	Data Reporting & Dashboards	Project Management
SQL	KPI & Metrics Development	Cross-Functional Collaboration
Spreadsheets (Advanced)	Data Management & Documentation	Communication & Reporting
Data Visualization	Program Planning & Execution	Process Improvement Using Data

PROFESSIONAL EXPERIENCE

Code/Art

Oct 2021 - Present

Programs & Data Manager

- Manage and scale student programs supporting 1,000+ students annually by planning clubs, camps, workshops, and coding competitions and recruiting and training instructors.
- Design and maintain standardized data collection systems that improve accuracy and consistency across surveys, attendance, and engagement tracking by implementing structured forms and centralized reporting workflows.
- Analyze participation and impact data to inform program strategy, curriculum updates, and grant reporting using trend analysis and performance metrics.
- Clean and maintain a 2,000+ row dataset and build automated Looker Studio dashboards to provide real-time program insights to stakeholders by integrating data sources and automating updates.
- Plan and execute 12+ programs per year while meeting timelines and deliverables by collaborating cross-functionally and managing tasks in Monday.com.
- Lead professional development workshops for 100+ K–12 teachers, demonstrating measurable growth in skills and understanding by analyzing assessment data and iterating on instructional content.
- Ensure clear communication with parents, teachers, and instructors by delivering regular progress reports and data-informed updates tailored to each audience.

Code/Art

Aug 2018 - Oct 2021

Programs Coordinator & Lead Instructor

- Led virtual and in-person Code/Art Clubs for Girls, teaching coding (JavaScript, Scratch, HTML/CSS) to 3rd–12th graders and keeping students engaged while they built real technical skills.
 - Supported professional development workshops for Miami-Dade County Public Schools teachers by breaking down coding concepts and helping them apply the material in their classrooms.
 - Served as the primary liaison between Code/Art and MDCPS, improving communication and streamlining scheduling for Teacher Assistants to keep programs running smoothly.
-
