

Keerthi Reddy Thumma

Java Developer

425-954-3297 | Keerthitreddy98@gmail.com | WA, USA | [LinkedIn](#) | Open to Relocate

SUMMARY

Java Developer with **5+ years** of experience in designing, developing and cloud solutions (AWS). Proven track record in building **scalable web applications** using **Java, Spring, Hibernate**, by enhancing **system performance up to 25%**, and implementing secure **API integrations** to drive business growth. Adept at optimizing database management (**MySQL, Oracle**), leading Agile projects, and collaborating with cross-functional teams to deliver **high-impact software solutions**. Skilled in **AWS cloud** infrastructure, and **API development**, with a passion for **solving complex technical challenges** and **improving user experiences**.

SKILLS

Languages & Frameworks: Java, Spring Boot, Spring MVC, JSP, Servlets, Hibernate

Web Technologies: HTML, CSS, JavaScript, jQuery, AJAX, Bootstrap

Databases: MySQL, Oracle, PostgreSQL

Tools & Technologies: Eclipse, Git, Maven, Jenkins, JIRA, REST APIs

Testing: JUnit, Mockito, Postman

Development Methodologies: Agile (Scrum), SDLC

Version Control & CI/CD: Git, GitHub, Jenkins

Servers: Apache Tomcat, WebLogic

Operating Systems: Windows, Linux

Cloud Computing: AWS, Microsoft Azure

EXPERIENCE:

Java Developer

JPMorgan Chase, USA | February 2023 – Present

- Developed and maintained **robust RESTful APIs** using **Spring Boot and Hibernate**, resulting in a **25% improvement** in **data retrieval** speed.
- Actively participated** in **Agile ceremonies** including **sprint planning, daily standups, and sprint reviews**, contributing to the timely completion of **95%** of assigned tasks.
- Spearheaded **agile development** with a **30% reduction** in cycle time through effective **scrum practices** using **JavaScript, and Java**, focusing on collaboration, **microservices implementation**, and scaling features.
- Focused on collaborative **team efforts, code review, optimization**, and mentoring junior developers for collective growth.
- Designed and updated **dynamic front-end components** using **JSP and JavaScript**, which led to a **20% improvement** in user experience.
- Implemented **Continuous Integration** using **Jenkins** and managed build processes with **Maven**, reducing deployment time by **30%**. Automated routine tasks to enhance **productivity and minimize** manual intervention in the **development lifecycle**.
- Resolved 90%** of production issues within SLA by **debugging and troubleshooting** in real-time. Developed unit and mock tests using **JUnit and Mockito**, achieving **85% code** coverage for new modules to ensure **high-quality, bug-free releases**.
- Managed the successful implementation of **CI/CD pipelines**, employing tools such as **Git, Jenkins, and Docker** to automate deployment processes, streamline **code reviews**, and conduct comprehensive testing (**unit, integration, e2e**), resulting in faster release cycles.

Java Developer

Barclays, India | March 2021 – August 2022

- Contributed to the **design and development** of internal web applications using **Java, Spring MVC, JSP, and Oracle database**, ensuring seamless integration between **front-end interfaces and back-end services** for efficient enterprise operations.
- Implemented reusable **DAO components** using **Hibernate**, which led to a **20% reduction** in **database access latency**.
- Focused on **optimizing data retrieval** and persistence layers for **enhanced application performance**.
- Leveraged Git** for source control and actively participated in pull requests and **peer reviews to maintain code quality**. Participated in code walkthroughs, incorporated feedback, and **enhanced maintainability**.
- Improved logging** and exception handling mechanisms, which resulted in **40% fewer system downtimes**.
- Conducted **API testing** using **Postman** and maintained up-to-date documentation with **Swagger**, ensuring clarity and consistency across the development team.

Associate Application Developer

Oracle, India | August 2019 – February 2021

- Contributed to development of scalable, enterprise-grade applications using **Java, Servlets, and JSP**, aligning with business requirements.
- Developed and maintained** server-side logic and integrated third-party **APIs**, resulting in a **15% increase** in overall application functionality.
- Ensured reliable and secure data flow between external services and core systems.
- Utilized **Eclipse IDE** for efficient coding and debugging, and deployed web applications on **Apache Tomcat**, streamlining the **development-to-deployment** workflow in a controlled server environment.
- Collaborated** closely with the **QA team** during UAT to validate features and **resolve issues**, which **helped reduce bugs by 25%**.
- Followed test plans and **regression strategies** to ensure **robust and error-free releases**.

EDUCATION

Saint Louis University

Master of Science in Computer and Information Systems

St. Louis, MO

August 2022 – May 2024

Holy Mary Institute of Technology and Science

Bachelor of Technology in Electronics and Communication Engineering

Hyderabad, India

August 2016 – December 2020

PROJECTS

Masters Research Project, Saint Louis University | October 2023 – May 2024

- Developed a master’s level 25-pages research article examining the integration of biometric authentication and encryption for cloud-based applications, enhancing security and privacy.
- Research on privacy-preserving systems, ensuring secure biometric data storage, transmission, and compliance with privacy regulations.

Hackathon Coordinator, Saint Louis University | November 2023 - December 2023

- Coordinated and managed hackathon program, organizing coding challenges that leveraged Java and Python, ensuring teams had clear objectives and technical support throughout the event.
- Provided mentorship to participants, offering guidance on using Java and Python to build scalable, efficient solutions while adhering to best coding practices.

CERTIFICATIONS

- AWS Certified Cloud Practitioner**
- Certified Microsoft Azure Fundamentals**
