- **Tools:** SQL, Excel, Power BI, SPSS
- **Systems & Platforms:** Salesforce, Oracle, Hubspot, SharePoint, Microsoft Office Suite
- **Process Improvement:** Documentation development, stakeholder support, cross-functional collaboration

PROFESSIONAL EXPERIENCE

Marketing Data Associate

Andersen | Contract

June 2025 – Current

- Cleaned and standardized Salesforce contact and account records, resolving duplicates and formatting inconsistencies to maintain database accuracy
- Used Excel and Power Query to audit, match, and validate records before upload, reducing campaign data errors
- Managed Salesforce reporting and workflows to maintain data integrity and accurate attribution across campaigns
- Built Excel-driven QA checks and validation processes to improve pipeline reporting accuracy
- Collaborated with marketing and RevOps teams to deliver self-service reports and dashboards

Marketing Data Associate

Kraft Kennedy | Contract

May 2025 – June 2025

- Automated HubSpot imports and workflows to process and manage conference and campaign leads
- Designed data hygiene checks (validation rules, VLOOKUP audits) to improve attribution and reporting
- Partnered with business development and marketing teams to ensure accurate pipeline tracking
- Developed lightweight dashboards and reports for campaign performance insights

CRM Data Migration Specialist

NABA INC | Remote

March 2024 – Sept 2024

- Executed data cleansing, deduplication, and migration QA during a Salesforce-to-Oracle transition covering 10K+ records
- Applied SQL and Excel reconciliation methods to flag and resolve discrepancies prior to system go-live

- Created repeatable data governance workflows to maintain CRM accuracy and compliance post-migration
- Partnered with leadership to align CRM processes with business objectives and enable self-service reporting

Junior Data Analyst

Learning A-Z | Remote

September 2022 – October 2023 (Contract)

- Designed and maintained SQL-driven data validation processes to ensure accuracy and integrity of educator and student datasets
- Built and optimized automated ETL workflows using Excel and SQL, cutting manual reporting time by 30%
- Partnered with product and business stakeholders to translate needs into scalable data solutions
- Tested and documented new tooling to support proof-of-concept data initiatives and advance platform maturity

Program Operations Coordinator

Stagen

May 2020 – October 2021 (Contract)

- Managed participant and program data across leadership cohorts, validating accuracy and completeness for reporting and reviews
- Built and maintained Excel tracking systems to monitor onboarding, milestones, and outcomes, increasing reporting efficiency by 30%
- Standardized data entry and documentation processes to reduce inconsistencies and strengthen long-term database quality
- Segmented participant data for outreach and communications, ensuring clean targeting criteria and reliable campaign execution

Education

Bachelor of Science in Psychology

University of North Texas | Graduation Date: 2017

Certifications

Certified Scrum Master (Scrum Alliance) | 2022 – Present
