

KHUSHBU BHATIA

Chicago, IL | +1-930-333-2178 | khushibhatia520@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary

Software Development Engineer skilled in **data structures, algorithms, and system design** with full-stack experience in **React, Node.js, Python, and SQL/NoSQL databases**. Skilled in building **scalable applications, REST APIs, and optimized database architectures**. Passionate about delivering **efficient, user-focused solutions** using Agile. Recognized as a **Smart India Hackathon 2022 winner** and **patent holder** for blockchain-based counterfeit detection.

EDUCATION

Indiana University Bloomington

Master of Science, Computer Science

- **GPA:** 3.5

Aug 2023 - May 2025

University Of Mumbai

Bachelor of Engineering, Computer Engineering

- **GPA:** 3.4

Jun 2019 - Jul 2023

SKILLS

- **Languages & Frameworks:** HTML, CSS, JavaScript, React, Python, Tailwind CSS, TypeScript
- **Tools & Platforms:** Git, GitHub, MongoDB, Postgres, Neo4j, VSCode
- **Design & UI/UX:** Figma (Wireframing, Prototyping), Adobe Photoshop, Responsive Web Design, User Experience, Chrome DevTools
- **Methodologies & Practices:** Agile Environment, Cross-browser Testing, Accessibility Best Practices

PROJECT

Job Tracker | Indiana University Bloomington

Mar 2025 - Present

- Developed a full-stack job tracker to log, update, and filter applications by status, improving organization and reducing manual tracking time by 60%
- Built React components with controlled inputs, validation, and dynamic filtering, enhancing user flow and reducing form errors by 40%
- Created RESTful APIs with Express and MongoDB (Mongoose) to handle CRUD operations across 100+ job entries
- Leveraged Git and Vite to streamline version control and frontend builds, cutting dev iteration time by 30%

Tour Ease | Indiana University Bloomington

Jan 2024 - Apr 2024

- Engineered a full-stack travel planner that generated dynamic itineraries based on user preferences, reducing manual planning time by 70%.
- Integrated 5+ APIs (Google Maps, WeatherStack, Yelp) to offer location-based suggestions and live updates, enhancing trip personalization accuracy by 50%.
- Refactored MongoDB schema and queries using indexing and efficient data modeling, reducing average load time by 35%
- Designed an intuitive interface using React and Tailwind CSS, leading to a 45% increase in user engagement during user testing.

Counterfeit Product Detection | University of Mumbai

Jan 2023 - Apr 2023

- Built a decentralized app using blockchain and QR code scanning to verify product authenticity, targeting the growing issue of counterfeit goods.
- Wrote smart contracts on Ethereum to ensure immutable and tamper-proof validation, reducing potential fraud cases by 80% during pilot trials.
- Developed a user-friendly UI to simplify verification flow, resulting in a 90% success rate in consumer trials.
- Filed a patent in 2023 for innovation in anti-counterfeiting technology, recognizing its commercial and technical value.

WORK EXPERIENCE

Technophile Bud

Jan 2022 - Apr 2022

Front End Web Developer Intern

- Translated Figma wireframes into responsive front-end components using HTML, CSS, and JavaScript, ensuring pixel-perfect implementation across all browsers.
- Collaborated in Agile sprints to deliver 5+ dynamic web pages. Optimized cross-device performance, increasing responsiveness and reducing layout inconsistencies by 40% through thorough testing and CSS breakpoints.

Let's Grow More

Sep 2022 - Dec 2022

Front End Web Developer Intern

- Refactored and modularized front-end code by creating 10+ reusable components, improving maintainability and reducing development time by 30%.
- Applied responsive design principles along with Flexbox/Grid layouts to ensure seamless user experiences, resulting in a 25% improvement in UI testing scores.
- Conducted visual audits and resolved design inconsistencies in collaboration with design teams, reducing UI bugs by 30% and enhancing overall user satisfaction.

ACHIEVEMENTS

- **Winner - Smart India Hackathon 2022 (Senior Software Edition - Startup Track)**
- **Patent Filed:** Blockchain-Based Counterfeit Product Detection (2023): Recognized for technical innovation with a formal patent
