Professional experience

State Bank of India (SBI) General Insurance Company Ltd. – Mumbai, India

July 2012 – Feb 2013

Underwriting – Manager, Group Health

- **Product Development** – Led the product design sessions with various stakeholders for Individual Personal Accident (PA) insurance. Later responsible for on-time delivery by managing external vendors. Also, provided data design and test cases for user acceptance.
- **Process Improvement** – Led development of premium workflow tool to drive process standardization, reduce cycle time, and decrease errors. Held validation sessions with internal team to verify the solution met all business requirements.
- **Business Development** – Worked with product development team to conduct product research, develop new products. Analyzed the data in the insurance application forms and determined the credit worthiness of the applicants in complex and intriguing cases.
- **Quotation Approval Workflow Automation** – Worked closely with internal IT department and vendors to help them understand the product, processes and business logics for developing the core system as well as incorporating underwriting norms for Group Health and Personal accident product underwriting. Facilitated workshop with internal stakeholders streamlining underwriting systems with other departments.
- **Pricing Strategy** – Reviewed and analyzed client data to determine degree of risk for underwriting decisions, quoted rates, policy coverages and clauses to be incorporated, pricing and deductibles and claims review of new and existing clients. Created multiple data visualizations to present descriptive statics and pricing analysis to senior leadership. Managed portfolio of over \$50 million.
- **Training** – Planned and implemented the training programs for the underwriting teams across India while introducing new plans for better understanding of products, norms and processes. Facilitating the training of the junior underwriters about the insurance underwriting policies and strategies to improve product quality on our team.

State Bank of India (SBI) General Insurance Company Ltd. – Mumbai, India

Sep 2010 – June 2012

Underwriting – Deputy Manager, Group Health

- **Financial Risk Analysis** – Reviewed and evaluated risk applications and accepted/ rejected applications in compliance of company guidelines. Reviewed and ensured policies were approved within company guidelines and regulatory underwriting standards.
- **Product Development** – Responsible for working collaboratively with the development team to assess and underwrite new business opportunities. Point person to review products with the insurance industry regulator and response to their queries. Managed portfolio of over \$25 million.
- **Strategic Planning** – Developed all processes with respect to underwriting including flow for the movement of policies. Developed product reckoners, training manuals, underwriting manuals for health and accident products to ensure consistency among all offices across India. Documented existing processes, highlighted performance gaps, and presented recommendations to improve efficiency. Active participation in launching PA product for accountholders of bank (SBI) resulting in over \$800,000 of premium within 20 days of launch.
- **Contract Negotiation** – Assisted Retail health team in TPA (Third Party Administrator) selection process for pre-policy medical checkups resulting in contractual agreements with three TPAs.

Reliance General Insurance Company Ltd. – Mumbai, India

May 2007 – Sep 2010

Underwriting- Assistant Manager

- **Product Management** – Assisted the senior underwriters by collecting information about the applicants and evaluated them based on the standard underwriting strategies and scope for proposals with premium up to \$200,000. Analyzed and reviewed financial information from various files underwritten and submitted the report to leadership.
- **Strategic Planning** – Created comparative analysis reports across health and Personal Accident product segments and identified gaps for new business products. Designed management reports for financial and sales data to facilitate strategy planning and performance monitoring. Responsible for periodic review of existing clients and preparing product management reports to present descriptive statics and pricing analysis to senior leadership.
- **Insurance Agent Management** – Assisted in briefing agents and sales team on policy coverage, wording, charges and measures to motivate sales. Established and maintained strong customer relationships providing excellent customer service by promptly researching and resolving account issues and support other team members by providing mentoring and training. Collaborated with other key company personnel as needed to add and retain profitable business.
- Developed insured data management tool for underwriting team to maintain records for policy alterations increasing efficiency and decreasing errors and managed the documentation for any midterm changes of existing insurance policies.
