

Khushita Joshi

USA | +1 857-465-0926 | khushitajoshi90@gmail.com | [LinkedIn](#)

Professional Summary

Data Analyst with 3+ years of experience in data automation, visualization, and predictive modeling. Skilled in Python, SQL, Power BI, Tableau, and Snowflake, with expertise in ETL development, dashboarding, and machine learning. Adept at transforming complex datasets into actionable insights that enhance decision-making, optimize performance, and drive business growth across finance and technology domains.

Professional Experience

Data Analyst, HyperNex Technologies, USA

Jun 2025 – Present

- Designed and automated data extraction and transformation pipelines using SQL, Python, and Snowflake, reducing manual processing time by 45%.
- Conducted data cleaning, validation, and EDA on 10M+ transactional records, improving reporting accuracy and analytical outcomes by 32%.
- Developed and maintained interactive dashboards in Power BI and Tableau, providing leadership with real-time visibility into business KPIs.
- Automated recurring report generation and data validation processes using Excel macros and Python scripts, reducing turnaround time by 40%.
- Partnered with cross-functional teams to define data KPIs, forecasting models, and ad hoc analytics, enabling data-driven decision-making and resource optimization.
- Collaborated with IT teams to migrate reports from on-prem databases to BigQuery, improving query performance by 35% and ensuring scalability.
- Delivered an average 31% improvement in analytics efficiency through data automation, streamlined reporting, and visualization enhancements.

Data Analyst, Xyphramin Technologies, India

Jan 2020 - Jul 2023

- Designed and optimized data pipelines and ETL workflows using SQL and Python, reducing data refresh time by 40% and ensuring up-to-date reporting across business dashboards.
- Conducted trend and variance analysis on revenue, credit risk, and operational KPIs, uncovering key cost drivers that improved budgeting accuracy by 18%.
- Built interactive dashboards in Power BI and Looker Studio, visualizing performance metrics across marketing, finance, and operations, improving leadership visibility and data-driven decision-making.
- Automated weekly executive reports in Excel and Python, cutting manual reporting time by 60% and eliminating recurring data-entry errors.
- Partnered with cross-functional teams to define data KPIs and reporting frameworks, ensuring alignment between analytics outputs and strategic business goals.
- Performed correlation and regression analysis to identify relationships between customer behavior, credit utilization, and delinquency trends, contributing to a 12% improvement in risk forecasting accuracy.
- Supported data migration from legacy SQL servers to Snowflake, validating data integrity and improving query performance by 35%.
- Collaborated with product and marketing teams to measure ROI of digital campaigns, identifying underperforming channels and optimizing ad spend efficiency by 22%.

Projects

Intelligent Data Pipeline Modernization & Real-Time Analytics

- Developed dynamic data pipelines with Python, SQL, and Snowflake to streamline processing, cutting manual effort by 45%.
- Created interactive BI dashboards in Tableau and Power BI, enhancing data visibility and improving overall efficiency by 31%.

E-commerce Analytics Platform

- Built recommendation engine using XGBoost and collaborative filtering, boosting customer engagement by 25%.
- Integrated Redis and MySQL to optimize performance for 10K+ concurrent users.

Certifications

- [SQL for Data Analysis: Advanced SQL Querying Techniques](#)
- [Python for Data Science, AI & Development](#)
- [AWS Certified Solutions Architect – Associate](#)

Technical Skills

- Programming Languages: Python, R, SQL, Scala
- Data Analysis & Tools: Pandas, NumPy, SciPy, Dask, PySpark, StatsModels
- Machine Learning Algorithms: Linear/Logistic Regression, Decision Trees, Random Forests, Gradient Boosting (XGBoost, LightGBM, CatBoost), SVM, Clustering (K-Means, DBSCAN), A/B Testing, Time Series Forecasting (ARIMA, SARIMA)
- Deep Learning & Computer Vision: TensorFlow, Keras, PyTorch, HuggingFace Transformers, OpenCV
- Natural Language Processing (NLP): NLTK, SpaCy, BERT, RoBERTa, GPT-3/4, T5, LLaMA, LangChain, Haystack (RAG), NER, Topic Modeling, Sentiment Analysis
- Finance & Risk Modeling: Credit Risk, Fraud Detection, Monte Carlo Simulation, Portfolio Analysis
- Retail & E-commerce: Recommender Systems, Churn Prediction, Demand Forecasting, Market Basket Analysis
- Data Visualization: Tableau, Power BI, Looker, Matplotlib, Seaborn, Plotly
- Database Management: PostgreSQL, MySQL, MongoDB, Cassandra, BigQuery
- Cloud Platforms: AWS (S3, EC2, Lambda, SageMaker), GCP (BigQuery, Vertex AI), Azure (ML Studio, Data Factory)
- Big Data Technologies: Apache Spark, Hadoop, Hive, Kafka, Databricks
- MLOps & Deployment: Docker, Kubernetes, FastAPI, MLflow, Streamlit, DVC, ONNX, BentoML, GitHub Actions, Airflow
- Version Control & Project Management: Git, GitHub, Bitbucket, GitLab, JIRA, Confluence
- Agile Methodologies: Scrum, Kanban, SAFe
- Statistics & Experimentation: Hypothesis Testing, Bayesian Inference, A/B/n Testing, ANOVA, Chi-Square, T-Tests

Education

- Master of Science in Computer Science**
Worcester Polytechnic Institute, USA
- Bachelor of Engineering in Information Technology**
Thakur College of Science and Commerce, India

Aug 2023 – May 2025

Jun 2017 – Jul 2020
