

Kirithi Nanjawode

Dallas, Texas | (940)597-4559 | keerthinanjawode@gmail.com

Summary

Detail-oriented BI analyst with a strong foundation in data cleansing, SQL querying, and dashboard creation using Power BI and Tableau. Successfully enhanced data accuracy and delivered actionable insights across multi-channel campaigns. Eager to leverage these skills in an entry-level IT Data Analyst role to support data integrity and drive informed decision-making in a remote setting.

EDUCATION

Indiana Wesleyan University | *MS, Data Analytics (GPA: 3.73)* **May 2025**

Stanley College Of Engineering & Technology | *MBA, Business Analytics (GPA: 9.2)* **Jul 2023**

WORK EXPERIENCE

Nobl Q - Modern Data Solutions **Mar 2024 - May 2025**

Marketing BI Analyst

- Conducted A/B testing and forecasting analysis to evaluate campaign performance, linking statistical insights to enhanced resource allocation and ROI.
- Implemented data cleansing routines using SQL, Oracle, and Excel (PivotTables, VBA) to ensure data quality and accurate reporting, increasing data accuracy by 25%.
- Developed and maintained interactive dashboards using Power BI to monitor key marketing KPIs, incorporating data visualization techniques to highlight trends.
- Documented data management processes and established a centralized data dictionary to support consistent data governance across teams.
- Supported the design of core data architectures and models by mapping source-to-target lineage and maintaining metadata repositories, contributing to overall data integrity.
- Extracted and transformed campaign datasets, applying statistical techniques including trend forecasting, correlation analysis, and A/B test evaluation to optimize campaign effectiveness.

Indiana Wesleyan University **Nov 2023 - Mar 2024**

Graduate Teaching Assistant – DTAN 505: Data Visualization

- Facilitated sessions on data visualization and analysis concepts, helping students understand visualization tools and techniques.
- Collaborated with faculty to refine course materials, aligning assignments with modern industry practices in IT data analysis.

Genpact **Apr 2021 - Jul 2023**

Business Intelligence Analyst

- Developed and automated interactive dashboards using Power BI and Tableau to transform raw data into actionable business insights.
- Translated business requirements into technical specifications by creating data models and KPIs, facilitating data-driven decision-making.
- Performed data extraction, transformation, and analysis using SQL and Excel to identify trends and uncover opportunities within operational data.
- Ensured data integrity through rigorous quality checks and governance measures, reducing reporting errors and increasing reliability.
- Optimized reporting processes by automating tasks with SQL queries, macros, and BI tools, streamlining data analysis workflows.
- Contributed to agile project development by leveraging SCRUM methodologies and collaborative tools like Azure DevOps and JIRA, enhancing overall project efficiency.

ACADEMIC PROJECT

Healthcare Data Analytics **Feb 2024 - Apr 2024**

Indiana Wesleyan University

- Analyzed 200M-row Medicare claims dataset using SQL and Python to identify pricing anomalies under the Drug Price Negotiation Program.
- Designed Power BI and Tableau dashboards for audit remediation tracking and KPI monitoring.
- Implemented SQL queries and ETL workflows to extract and integrate data from multiple healthcare sources for analysis.

SKILLS

- **Data Management & Analysis:** Cleansing, Validation, Transformation, Governance, Metadata Cataloging, Data Manipulation, Analytical Skills
- **Databases & Tools:** SQL (SQL Server, MySQL, Oracle), Azure SQL, SSIS, ADF, SAS, Python
- **Reporting & BI:** Power BI, Tableau, Looker Studio, GA4, Crystal Reports, Excel (PivotTables, VBA), Data Visualization
- **ETL & Integration:** ETL Pipelines, Data Migration, Visual Studio, Multi-Source Integration
- **Architecture & Modeling:** Data Modeling, Dictionaries, Lineage, Source-to-Target Mapping
- **Collaboration & DevOps:** Agile/Scrum, Azure DevOps, Git, JIRA, ServiceNow
