Core Skills: Data Science, Data Analysis, Data Visualization, Machine Learning, Cloud Platforms (AWS Certified), Agile Methodologies, Data Cleaning and Preprocessing, Statistics, Mathematics, Communication

PROJECTS

My Fitness Tracker

July 2024 - Present

- Designed an end-to-end running performance tracker using **Tableau** and **Excel** that uncovered pace and endurance trends over time and enabled data-driven insights through interactive dashboards and analysis of time of day and environment to improve training decisions
- Developed and managed a **SQL** database to track running data, reducing manual analysis time by 50% and enabling data-driven decisions to optimize my routine

Instacart and Market Basket Analysis

April 2025

- Analyzed over 3 million Instacart orders using **Python** and **Tableau** to identify key sales trends, peak order times, and top-performing products, providing insights to optimize inventory and marketing strategies
- Built a market basket **recommendation system** and applied customer **clustering** to uncover frequent product pairings and segment users by buying behavior, enabling more personalized cross-selling and retention efforts

Federal Funds Effective Rate Prediction

November 2024

- Built an LSTM neural network model in **Python** to predict the Federal Funds Effective Rate for the next five months, achieving an R^2 score of 0.83
- Preprocessed and normalized economic data to train the model, helping forecast interest rate changes that influence loans, savings, and investment timing for individuals and businesses

WORK EXPERIENCE

Alchemy

Remote

Data Analyst (Contract)

November 2022 - January 2023

- Cleaned and standardized 5000+ applicant records, removing duplicates and resolving inconsistencies to ensure accurate analysis and reliable results for HR decision-making
- Classified applicant emails with 90% accuracy, filtering 28% spam to save HR screening time and establish ongoing fraud detection process
- Created visual tables and dashboards in **Excel** and **PowerBI** to present findings to management, enabling data-driven hiring strategy decisions and process improvements

Tiger Advisory Group

Parsippany, NJ

Business Analyst Intern

September 2022 - February 2023

- Gathered business requirements through 8 stakeholder interviews, reducing development delays and ensuring deliverables met business needs
- Facilitated Agile planning processes that improved project delivery timelines and reduced scope changes through clearer communication between teams

PROFESSIONAL DEVELOPMENT

Amazon Web Services (AWS) Certified Cloud Practitioner Certification

February 2023 - 2026

- Provides a foundational understanding of AWS Cloud concepts, services, and terminology
