ABOUT

Computer Science undergraduate (4.0 GPA) with proven experience in full stack development, REST API design, real-time systems, and cloud deployment. Skilled at delivering scalable, high-performance applications with measurable results. Recognized for academic excellence and strong problem-solving skills. Seeking software engineering and development opportunities.

SKILLS

Programming Languages: Java, Python, C, C++, JavaScript, SQL, PHP

Web Development: HTML, CSS, React, Node.js, Express, MongoDB, MySQL

Tools & Platforms: Git, GitHub, Android Studio, VS Code, n8n, CI/CD (Vercel, Render)

PROJECT WORK

StoryScope - *Full-Stack Social Platform for Story Sharing*

story-scape-frontend.vercel.app/

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Vercel, Render

- Developed a responsive MERN platform enabling users to publish, share, and engage with 500+ short stories.
- Reduced authentication time by 30% through secure JWT-based login and access control.
- Designed algorithm-driven content feed that improved average user session length by 18%.
- Deployed production-ready frontend and backend with automated CI/CD pipelines, achieving 99.9% uptime.

TradeLyst - *Social Media Platform for Traders*

trade-lyst-frontend.vercel.app

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Vercel

- Built a social platform for traders, reaching 200+ early adopters during testing.
- Optimized backend with MongoDB indexing, reducing query times by 25%.
- Pioneered the incorporation of JSON Web Token (JWT) authentication, alongside encrypted data storage, resulting in elevating the application security score on penetration tests by 15% within one quarter.
- Constructed responsive UI, increasing mobile retention by 15%.

E Cloth - *E-Commerce Clothing Website*

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

- Created customer and admin dashboards, streamlining order management by 40%.
- Integrated backend authentication and order workflows, processing 1,000+ records reliably.
- Optimized delivery tracking efficiency by 20% through custom module implementation.
- Enforced input validation, cutting submission errors by 95%

Pininfo - *Service Provider Aggregator Platform*

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

- Formulated multi-role web application (users, providers, admins) enabling 100+ service bookings in beta phase.
- Automated service scheduling and provider listings, reducing manual coordination by 60%.
- Constructed and implemented a scalable CRUD backend that securely managed 500+ user accounts and service records, improving data handling efficiency by 35%.

EDUCATION

Portland State University - Portland, OR Bachelor of Science in Computer Science	Sep 2024 - June 2028 GPA 4.0 / 4.0
Utkarsh Vidhyalaya - Gujarat, India 12th Science (Physics, Chemistry, Mathematics)	June 2022 - March 2023
Utkarsh Vidhyalaya - Gujarat, India 10th (Secondary Education)	June 2020 - March 2021

CERTIFICATES

- **Full Stack Web Development** – MERN stack, REST APIs, authentication, deployment.
- **Advanced Web Design** – Responsive design, UI/UX, accessibility, cross-browser compatibility.
- **Android App Development** – Java, activity lifecycle, fragments, Firebase integration.
- **C & C++ Programming** – Pointers, memory management, file handling, OOP.

HONORS

President’s Honor Roll – Portland State University Awarded for maintaining a perfect 4.0 GPA across consecutive academic terms. Recognized by the Office of the Registrar for exceptional academic excellence.	Dec 2024, March 2025
Dean’s List – Portland State University Earned placement on the Dean’s List with a GPA of 3.99 , demonstrating consistent high performance and commitment to academic success.	June 2025
