QUALIFICATIONS SUMMARY

Results-driven Data & Business Intelligence Analyst with 2+ years of experience supporting healthcare analytics and operational reporting through dashboards, financial data modeling, and cross-functional collaboration. Proven ability to work with clinical, operational, and administrative stakeholders to interpret complex data, build dynamic BI tools (Power BI, Tableau), and deliver actionable insights that enhance efficiency, quality of care, and patient satisfaction. Hands-on experience with clinical, behavioral health, and operational data in HIPAA-compliant environments. Passionate about driving performance through dashboards, summary/detail reports, and KPI reporting tools that directly support hospital operations and leadership decision-making.

EDUCATION

Cleveland State University, Cleveland, OH	May 2023 - Dec2024
Master of Science – Computer Science	GPA:3.69/4.0
Gujarat Technological University	Aug 2018- May 2022
Bachelor of Science – Computer Science	GPA: 3.7/4.0

SKILLS

Data Analytics & Visualization: Power BI, Tableau, Excel (PivotTables, VLOOKUP), Access, SQL, Python, t-SQL
Business Intelligence & Reporting: Dashboard development, KPI reporting, summary and detail reports
Healthcare Analytics: Clinical outcomes, service utilization, patient adherence, behavioral health metrics
Data Management: SQL Server, Oracle, MongoDB, ETL (Kafka, REST APIs, JSON, XML)
Compliance & Governance: HIPAA compliance, KRI, Risk Metrics, data privacy
Communication & Tools: Microsoft Office Suite (Excel, Word, PowerPoint), SharePoint, Git, UML, BPMN
Soft Skills: Stakeholder engagement, presentations, documentation, cross-functional collaboration, problem-solving

WORK EXPERIENCE

Graduate Teaching Assistant Cleveland State University	Aug 2024 – Dec 2024
- Developed and maintained interactive dashboards and summary/detail reports using Power BI to support academic and simulated clinical datasets. - Created custom BI tools and KPIs to assist academic leadership in performance monitoring and decision-making. - Utilized UML and BPMN for visualizing workflows and maintaining governance documentation. - Partnered with faculty and students to validate data accuracy, ensuring compliance with internal standards.	
Data Analyst Intern– Healthcare & Operations Softvan Pvt. Ltd. India	Jul 2020 – Jun 2021
- Designed dashboards in Power BI and Tableau for clinical operations and compliance teams. - Extracted and transformed healthcare-adjacent service data using Oracle SQL, t-SQL, and Access for use in real-time dashboards. - Delivered insights on operational efficiency, service gaps, and compliance KPIs to internal leadership. - Supported ETL pipelines using APIs and Kafka to maintain timely and accurate reporting processes.	

APPLICABLE PROJECTS

Behavioral Health Dashboard Analytics
<i>Power BI, SQL Server, Python, Excel</i>
- Developed dashboards to monitor care quality indicators like appointment adherence and treatment rates. - Created visual alerts and summary reports for decision-making by simulated healthcare administrators.
Financial Risk & KPI Reporting
<i>SQL Server, Python, Power BI, JSON/XML</i>
- Built Power BI dashboards to track payment failures, fraud alerts, and financial performance metrics. - Improved operational response and reduced manual reporting by 30%.
Operational Log Monitoring for Risk Detection
<i>Python, Power BI, MongoDB, Kafka</i>
- Analyzed 1M+ log records for performance risks and API failure patterns. - Built real-time dashboards and summary reports to assist system reliability teams.
Sentiment Analysis for Patient Feedback
<i>Python (Scikit-learn, pandas), REST API, Power BI</i>
- Processed 1.5M patient feedback records to identify negative sentiment and service issues. - Presented performance summaries to simulated health quality teams for service enhancement.
