Summary

Entry-level .NET Developer with hands-on experience migrating applications from .NET Framework 4.x to .NET 6, rewriting ASP.NET Web Forms into Blazor Server, and converting WCF services into modern REST APIs. Skilled in building clean and maintainable C# code, debugging legacy systems, and improving application performance. Strong understanding of SQL Server, backend development, API integration, and modern .NET best practices.

Technical Skills

- **Languages:** C#, SQL, Java, Python, JavaScript
- **Frameworks:** .NET 6/7, .NET Framework 4.x, ASP.NET Core, Blazor Server, Web API, Entity Framework Core
- **Migration Tools/Concepts:** WebForms to Blazor rewrite, WCF to REST API conversion, DI, async/await, minimal APIs
- **Databases:** SQL Server, MySQL
- **Tools:** Visual Studio, Postman, Git, Azure DevOps, Jira
- **Concepts:** REST APIs, OOP, LINQ, Unit Testing, Agile/Scrum

Experience

Gait Solutions

Feb 2024 – Present

.Net Developer(remote)

- Migrated legacy .NET Framework 4.x applications into .NET 6 following internal coding practices.
- Rewrote ASP.NET WebForms into Blazor Server components using reusable layouts and services.
- Converted WCF SOAP services into REST APIs using .NET 6 minimal APIs.
- Modernized outdated C# code with dependency injection, async/await, and improved abstractions.
- Debugged legacy modules and optimized slow-running components.
- Wrote SQL queries and stored procedures to support application features.
- Performed functional testing to validate migrated modules for accuracy and stability.
- Collaborated in code reviews, sprint planning, and weekly meetings.

Hudha Info Tech

Aug 2020 – Jun 2021

Java Intern(remote)

- Built and maintained REST APIs using Java Spring Boot.
- Implemented CRUD microservice components.
- Integrated MySQL database operations using Spring Data JPA.
- Fixed bugs, wrote unit tests, and participated in daily stand-ups.

Education

Northern Arizona University, Flagstaff, AZ

Master of Science – Computer Science

Aug 2022 – Dec 2023

Usha Rama College of Engineering, Vijayawada, India

Bachelor of Technology – Computer Science

Aug 2016 – May 2020
