SUMMARY

Strategic Data Analyst with a strong foundation in machine learning, data automation, and dynamic dashboarding. Experienced in transforming raw data into business-ready solutions that drive performance, reduce inefficiencies, and guide strategic growth. Proven expertise in Python, SQL, Power BI, and Tableau. Recognized for building scalable pipelines, deploying predictive models, and enabling data-led decision-making across academic, enterprise, and consulting environments.

SKILLS

Languages & Tools: Python, SQL, R, Power BI, Tableau, Excel, Streamlit, Prophet, DuckDB, Git, PySpark, Google Data Studio
Libraries & Frameworks: Pandas, NumPy, Seaborn, Matplotlib, scikit-learn, TensorFlow, OpenPyXL, Selenium, BeautifulSoup, SPSS
Platforms & Services: AWS (EC2, S3, RDS), Databricks, Ollama (LLM), n8n, Jira, Trello, Salesforce, Sagemaker, Snowflake
Techniques & Methods: Forecasting, Machine Learning, Deep Learning (CNN, RNN), Exploratory Data Analysis, KPI Development, Regression, Classification, Random Forest, Feature Engineering, LLM Integration, Statistical Modeling, Multivariate Analysis, A/B Testing, Time Series, ETL Pipelines, Predictive Analytics, Web Scraping, Agile (Scrum), Business Process Improvement

EXPERIENCE

Data Analyst | California State University, Long Beach Nov 2024 – May 2025

- Engineered forecasting models in Python and Excel to improve inventory accuracy by 10% and streamline procurement cycles.
- Launched dynamic Power BI dashboards for academic leadership and operations teams, enabling real-time metric tracking, improving cross-functional communication, and reducing report preparation effort by 30%.
- Merged 1M+ operational records using Pandas and SQL, improving data quality and simplifying downstream analysis.
- Executed 50+ statistical studies using regression and classification, boosting academic risk prediction accuracy and enabling a documented 18% improvement in intervention effectiveness.
- Standardized reporting templates across departments, improving consistency and accelerating data reviews by 25%.

Data Analyst | BSC&A Partners Ltd, India May 2022 – July 2023

- Automated legacy Excel workflows with Python and Power Query, streamlining monthly reporting for 6 departments and improving reporting accuracy, data structure, and stakeholder visibility across international accounts.
- Diagnosed three aerospace PLM rollouts, surfacing four inefficiencies and accelerating timelines by 15%.
- Assessed PLM maturity for international clients and delivered KPI-aligned roadmaps that increased integration readiness by 15%.
- Led migration and testing for three global deployments, ensuring 100% QA compliance and smooth business continuity.
- Built a documentation framework used by 5 delivery teams, reducing onboarding friction and supporting cross-team execution.
- Collaborated with consultants and architects on 8+ initiatives to align features with needs, cutting integration defects by 30%.
- Consolidated 250K+ PLM records and delivered dashboards to leadership, reducing reporting cycles by 35%.

PROJECTS

Retail Sales Forecasting & Automation | Python, DuckDB, Prophet, Power BI, n8n, Ollama

- Deployed Prophet-based forecasting pipeline using DuckDB and Python, boosting 3-month sales accuracy to 92% across regions.
- Automated weekly summaries using Ollama's LLM and scheduled delivery via n8n email workflows, reducing manual reporting time by 40% and improving executive reporting efficiency.

Call Center Performance & Coaching Dashboard | Tableau, Data Visualization, Data cleaning, KPI Tracking

- Designed dual dashboards in Tableau: one for executive KPI tracking and one for trainer performance insights, improving agent coaching response time by 20% and reporting usability across teams.
- Highlighted call trends using heatmaps, radial charts, and Top/Bottom N metrics to assist in performance interventions.

AI Logistics Optimization Agent | Python, Streamlit, scikit-learn, pandas, Matplotlib

- Developed an ML-based logistics tool recommending delivery modes improving route efficiency by 25%.
- Integrated business rules, cost/ETA scoring, and a self-training loop to adapt to real-time shipping performance data.

EDUCATION

California State University, Long Beach | Master of Science Management Information Systems Aug 2023 – May 2025

Jawaharlal Nehru Technological University | Bachelor of Engineering (BE), Mechanical Engineering Aug 2018 – May 2022

CERTIFICATIONS

Google: Data Analytics, Advanced Data Analytics, AI Essentials, Project Management, Python Automation, Cybersecurity

AWS: Machine Learning Foundations, Cloud Foundations

Other: SQL, Tableau, Excel Fundamentals for Data Analysis (U. of Macquarie), Strategic Business Management – Macroeconomics (U. of California), Alteryx Core, Databricks Fundamentals, Strategic Management (UC Irvine), ML for All (U. of London), Fusion 360 (Autodesk), Git & GitHub, R Programming, BI Visualization, Design Thinking Practitioner, IBM Co-Creator, Team Essentials for AI
