SUMMARY

Data Analyst with hands-on experience turning complex data into clear insights and actionable solutions. Skilled in SQL, Python, Power BI, Tableau, and Excel, with a track record of improving processes and simplifying decision-making through automation and visualization. Currently Graduated in Master's in Management Information Systems with a focus on analytics and cloud systems.

SKILLS

Data & BI Tools: SQL, Power BI, Tableau, Excel (Power Query, Pivot Tables, VBA), KPI Tracking, Forecasting, Report Automation, Data Cleaning, Data Visualization, Looker, Google Data Studio, Visio, IBM SPSS, Alteryx

Programming & Automation: Python (Pandas, NumPy, Scikit-learn), R, Shell Scripting, Selenium, Django, Git, Web Scraping

ML & Modeling: Regression, Classification, Time Series, Random Forest, CNN, RNN, Feature Engineering, Statistical Analysis

Databases & Cloud: MongoDB, PostgreSQL, MySQL, AWS, Azure, Databricks, ETL, Data Warehousing, DBMS

Process & Collaboration: Agile (Scrum), Jira, Trello, Technical Writing, Troubleshooting, Stakeholder Communication

EXPERIENCE

Business Analyst | California State University-Long Beach, College of Business Nov 2024 – May 2025

- Identified inconsistent inventory reporting across five retail units and developed Power BI dashboards and automated Excel reports to track real-time sales performance, reducing stockouts by 10% and improving forecasting accuracy.
- Delivered visual reporting tools that streamlined weekly planning discussions and enhanced visibility into sales metrics.
- Automated monthly reporting using Power Query, reducing manual turnaround time by 20%.

Business Analyst | BSCA Partners Ltd, India

May 2022 – Feb 2023

- Unified sales and margin data from three business units into dashboards for leadership strategy reviews.
- Automated recurring Excel reports with Power Query and VBA, reducing delivery time by 30%.
- Designed product performance models that supported decisions on product optimization and cost savings.

Subject Matter Expert (Statistics) | Chegg India

Oct 2020 – Aug 2023

- Delivered daily solutions to 30+ student questions in statistics, regression, and hypothesis testing.
- Authored 1,000+ structured, step-by-step tutorial solutions covering probability, statistics, and calculus concepts.

PROJECTS

AI Logistics Optimization Agent — Streamlit, Python, scikit-learn, pandas

Mar 2025 – May 2025

- Implemented a self-learning model for delivery mode prediction with cost/ETA output, refined through user decision logs.

Tableau Storytelling – Sales

Mar 2025 – Apr 2025

- Built a dashboard analyzing \$6.18M in sales across 177K+ records; helped stakeholders target product and seasonal gaps.

Automated Data Entry & Form Submission Tool - Python, Selenium

Oct 2024 - Feb 2025

- Developed script to scrape career sites of H1 – b offering Companies and auto-fill a form, saving 90% of manual effort.

Real-Time News Popularity Forecasting – Python, CNN, RNN

Aug 2024 – Dec 2024

- Analyzed 39K+ news articles using Random Forest, CNN, and RNN, achieving 73% prediction accuracy.

Sports Arena Management System – SQL & ER Modeling

Jan 2024 – Apr 2024

- Designed a relational database to manage arena bookings, payments, and schedules; simulated scenarios with 500+ records.

YouTube Channel Performance Analysis – SPSS

Aug 2023 – Dec 2023

- Conducted statistical analysis to identify top revenue-driving metrics in YouTube creator datasets.

EDUCATION

California State University, Long Beach | Master of Science Management Information Systems | Aug 2023 – May 2025

Jawaharlal Nehru Technological University | Bachelor of Engineering (BE), Mechanical Engineering | Aug 2018 – May 2022

CERTIFICATIONS

- Google:** Data Analytics, Advanced Data Analytics, AI Essentials, Project Management, Python Automation, Cybersecurity
- AWS:** Machine Learning Foundations, Cloud Foundations
- IBM:** Design Thinking Practitioner, Co-Creator, Team Essentials for AI
- Other:** SQL, Tableau, Excel Fundamentals for Data Analysis (U. of Macquarie), Strategic Business Management – Macroeconomics (U. of California), Alteryx Core, Databricks Fundamentals, Strategic Management (UC Irvine), ML for All (U. of London), Fusion 360 (Autodesk), Git & GitHub, R Programming, BI Visualization

Highlights

- Runner-Up at CSUF Datathon for developing a BI solution using Alteryx and Tableau.
- Led 4+ technical workshops on SQL, Power BI, and Python for analytics peers at CSULB Data Science Club.
- Completed job simulations with Accenture, Cognizant, and Red Bull covering analytics, Agile, and client sales strategy.
