PROFESSIONAL EXPERIENCE

Teacher's Assistant, *St.Aidan's Preschool*, August 2023 – Present

- Maintained accurate student records, including medical and emergency contact information, demonstrating precision and responsibility in data handling
- Supported classroom instruction, routine monitoring, and progress evaluation—reinforcing strong observation, documentation, and communication skills
- Assisted in planning and delivering educational activities, contributing to a structured and supportive learning environment

Medical Records Coder Senior Representative

Specialty: Radiology & Anesthesia

Dell Business Solutions, June 2014 – June 2015

- Monitored and reviewed daily system downloads to ensure timely and accurate coding workflow for radiology and anesthesia cases.
- Assigned accurate ICD-10-CM, CPT, and HCPCS codes based on medical documentation; applied appropriate coding modifiers according to service type.

- Conducted pre-audit chart reviews to identify and correct discrepancies prior to internal audit submission, improving first-pass accuracy.
- Supported onboarding and training of new coders by facilitating chart review sessions, offering specialty-specific coding guidance, and serving as a shadowing mentor during initial onboarding.
- Performed preliminary chart audits for new coders to ensure coding accuracy and consistency before formal audit review.
- Maintained up-to-date knowledge of coding updates, payer policies, and compliance guidelines specific to radiology and anesthesia.
- Consistently met or exceeded department productivity and quality standards.
- Utilized medical coding software and systems, including CITRIX, to complete daily workflow.

Senior Medical Records Coder

Specialty: Radiology

Quintessence Business Solution and Services, Nov 2016- May 2017, Coimbatore, India

- Coded high-volume patient records using CPT, ICD-10, and HCPCS, ensuring compliance with insurance requirements and regulatory standards
- Reviewed clinical documentation to determine procedures ordered vs. performed, assigning appropriate procedure and diagnosis codes
- Maintained daily productivity targets with a consistent record of accuracy and attention to detail
- Upheld HIPAA and organizational guidelines to safeguard patient privacy and data integrity
