EDUCATION

University of North Carolina at Charlotte, Charlotte, NC
B.S. in Business Administration, Major: Management Information Systems
Dean's List: Fall 2024 | Expected Graduation: Dec 2025

Wake Technical Community College, Raleigh, NC
Associate of Arts — GPA: 3.2/4.0
President's List Fall 2023 | Dean's List Spring 2024

TECHNICAL SKILLS

Data Analysis & Programming: SQL (SQL Server – query writing, optimization, joins), Python (Pandas, NumPy), R, Advanced Excel (Pivot Tables, Macros, Formulas), Statistical Modeling, Data Cleaning & Validation

Visualization & BI: Power BI, Tableau, Crystal Reports, KPI Tracking, Dashboard Creation, Infrastructure Monitoring Visualizations

IT Data Concepts: Familiar with servers, networks, cloud fundamentals; Exposure to EHR/IT systems; Willing to learn IT monitoring tools (Splunk, Datadog, New Relic)

Data Management & ETL/ELT: Data Modeling, Database Optimization, Microsoft Access, Informatica, API Integration, Data Documentation

Collaboration & Tools: Git, Microsoft Office Suite, Looker (willing to learn)

CERTIFICATIONS & TRAINING

Microsoft Office Specialist (Excel, Word, PowerPoint)

Google Data Analytics Professional Certificate (In Progress – Expected 2025)

CompTIA Data+ or Microsoft Power BI Certification (Pursuing)

PROFESSIONAL EXPERIENCE

UNC School of Medicine IT, Chapel Hill, NC
Data Analyst Intern — Mar 2025 – Present

- Analyzed large IT and healthcare-related datasets, including system and application performance data.

- Developed Power BI dashboards to monitor system reliability and operational metrics for stakeholders.
- Built SQL queries to extract, transform, and validate datasets across complex databases.
- Performed trend and pattern analysis to identify inefficiencies and support system improvement initiatives.
- Documented system data requirements and data flows, ensuring reproducibility and accuracy.

National Research Group, Remote

AI Risk Extern — Jun 2024 – Jul 2024

- Conducted quantitative analysis and risk assessment using Python and R.
- Built Tableau dashboards to visualize patterns and communicate insights to leadership.
- Supported ad-hoc analysis requests, applying structured methods to validate findings.

UNC Public Safety Department, Chapel Hill, NC

Security Officer — Jan 2024 – May 2024

- Maintained accurate, validated incident reporting data in compliance with institutional standards.
- Collaborated with internal teams to improve accuracy and efficiency of reporting processes.

Mezeh, Morrisville, NC

Store Associate — May 2023 – Dec 2023

- Collected and analyzed sales and inventory datasets using Excel and Tableau, reducing waste by 15%.
- Designed dashboards to track KPIs and detect patterns in operational performance.

ADDITIONAL INFORMATION

- U.S. Citizen, authorized to work in the United States.
- Strong foundation in SQL, Python, BI dashboards, and data validation with growing knowledge of IT system monitoring.

- Detail-oriented, organized, and adaptable, with a passion for leveraging data to optimize IT and business performance.
- Interested in expanding expertise in cloud platforms and IT monitoring tools (Splunk, Datadog, New Relic).
