EDUCATION

Indiana University

B.S in Computer Science

Indianapolis, IN

Expected Graduation, May 2026

- **GPA:** 3.33/4
- **Related Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Combinatorics, Machine Learning, Artificial Intelligence, Object-Oriented Programming, Statistics & Applications.

EXPERIENCES

SRET

Intern

Chennai, India

May 2023- July 2023

- Constructed a project called “**CREDIT CARD FRAUD DETECTION**”
- Learned to use classification machine learning algorithms, statistics, and linear algebra in building complex machine learning models for detection.

SRET

Intern

Chennai, India

Feb 2024 – April 2024

- Constructed a project called “**HEART ATTACK ANALYSIS AND PREDICTION WITH FUZZY LOGIC**”
- Learned to use models like logistic regression, random forest, and SVM classifiers to accurately assess risk, and utilized fuzzy logic to predict heart attack risk levels.

PROJECTS

- **Radiomics Overlay Visualization for Prostate MRI:** Developed a Python-based pipeline using Pyradiomics and SimpleITK to extract radiomic features from standardized MRI (T2W, ADC, LS1) and overlay lesion annotations; exported feature maps as transparent PNGs to enhance diagnostic clarity.
- **Hotel Management System:** Engineered a comprehensive Python-based system with features for managing hotel room bookings, customer information, billing, and staff assignments.
- **Online Store Management:** Developed using Java, focusing on crafting an intuitive interface for product browsing, cart management, and secure checkout.
- **Quiz Zone:** Developed a web application using scripting languages, showcasing proficiency in web programming.
- **Pet Care System:** Created a Java program implementing interfaces, Enums, and serialization, allowing interaction with pets, tracking attributes, and managing pet states, showcasing strong object-oriented programming skills.
- **IR Remote Controlled Home Automation Using Arduino:** Developed a project using Arduino, demonstrating expertise in hardware integration and programming for smart home solutions.

SKILLS

Programming: C++, C, Python, Java, HTML/CSS, SQL, MATLAB, XML, R.

Tools: VS Code, Xcode, DBMS, IDLE, Android Studio, Jupiter.

Event Coordination: Managed and organized events for the International IU Club, ensuring seamless execution and engagement across diverse audiences.

ACTIVITIES

Mindspark'23, SRET

Chennai, India

May 2023

- **Mindspark'23:** 3rd Place Winner, IoT Buzz Competition (Detecting Plant Moisture and Temperature using IOT)
