

PROFESSIONAL SUMMARY

Full-stack MERN developer with 3.5+ years of experience building scalable web applications using MongoDB, Express.js, React.js, and Node.js. Spearheaded development of collaborative platforms that improved cross-functional team efficiency by 30% and reduced manual workflows by 40%. Optimized CI/CD pipelines with Jenkins and GitHub Actions, cutting deployment time by 85%. Proficient in integrating third-party services like Stripe and building RESTful APIs. Experienced in deploying secure, high-performance apps on AWS and Azure cloud infrastructures.

EXPERIENCE

CyberInfrastructure Inc, San Jose, CA – Software engineer

Feb 2025 – Present

- Built a full-stack collaboration platform using **MongoDB, Express.js, React.js, and Node.js**, boosting cross-team integration by **30%** and supporting the company's fastest-ever feature rollout.
- Created an interactive workflow coordination tool using **React.js and Node.js**, which earned internal recognition as the **"Most Innovative Project."**
- Automated real-time subscription handling by integrating **Stripe webhooks** with Node.js, reducing manual operations by **40%** and improving response times.
- Optimized Stripe payment flow using Express.js, resulting in a **5% uplift in transaction success rate** and monthly cost savings of **\$5,000**.

DispatchTrack, Hyderabad, India-Full Stack JavaScript Developer

Dec 2021 – Dec 2022

- Led requirements gathering with **5 SMEs** to translate complex insurance logic into React + Node.js features, achieving **95% accuracy** in the initial release.
- Built a modular rules engine in **Node.js** for insurance product validation, decreasing policy processing time by **30%**.
- Designed a decoupled validation microservice layer using **Express.js**, reducing developer dependency by **90%** and improving compliance updates.
- Developed end-to-end test coverage for 95% of platform functionality using **Jest and Cypress**, preventing system failures across multiple environments.
- Trained a team of **10 developers** during a migration to microservices architecture, speeding up the release cycle by **20%**.

L&T Finance Limited, Mumbai, India-MERN Stack Developer

May 2020 – Nov 2021

- Spearheaded the rebuild of a Digital Loan Origination Platform using **React.js, Node.js, and MongoDB**, supporting over **10,000 daily loan applications** with zero downtime.
- Created secure RESTful APIs in Express.js integrated with credit bureaus and payment gateways, improving loan approval efficiency by **30%**.
- Developed **real-time loan data pipelines** using Node.js and Kafka, enabling instant fraud detection and credit scoring.
- Collaborated with Product, QA, and DevOps in Agile sprints to deliver feature sets on time, improving team throughput by **25%**.
- Implemented **JWT-based authentication** and **OAuth2** workflows, ensuring compliance with industry-grade security protocols.

L&T Finance Limited, Mumbai, India-Software Developer Intern (MERN Stack)

Nov 2019 – Apr 2020

- Re-architected legacy systems into a **microservices structure** using Node.js, cutting system latency by **40ms** and improving crash recovery.
- Enhanced MongoDB query performance and optimized JavaScript logic, reducing processing time by **53%** and increasing throughput.
- Integrated third-party services (payment gateways, data providers), reducing ops overhead by **30%** and increasing user retention by **15%**.
- Implemented monitoring tools using **Winston and PM2**, improving application reliability in production environments.

TECHNICAL SKILLS

Frontend: React.js, Vue.js, JavaScript, TypeScript, Redux, HTML5, CSS3, Tailwind CSS, Responsive Design, UI/UX Optimization
Backend: Node.js, Express.js, RESTful APIs, GraphQL, JWT Authentication, OAuth2, WebSockets, API Documentation
Database: MongoDB, Mongoose ODM, NoSQL Data Modeling, Aggregation Pipelines, Performance Optimization
DevOps & Cloud: Docker, Git, GitHub Actions, AWS (EC2, S3, Lambda), Heroku, Vercel, Netlify, CI/CD Pipelines
Testing: Jest, Supertest, Mocha, Chai, Postman, Integration & E2E Testing
Tools & Others: VS Code, Cursor AI, npm, yarn, Webpack, Babel, ESLint, Prettier, Agile/Scrum, Jira
AI: Prompt engineering, Gen AI, Open AI, LLMs, Hugging face, LangChain

EDUCATION AND CERTIFICATES

Master's in Computer Science <i>San Francisco Bay University Fremont, CA</i>	<i>May 2023–Dec 2024</i>
AWS AI practitioner (Certificate Course)
