EXPERIENCE

Data Analyst

Jan 2025 – Present

Metropolitan Transportation Authority

New York, NY

- Architected and managed automated ETL pipelines in Python to integrate and transform data from multiple sources, reducing manual reporting by 15+ hours per week.
- Developed SQL queries and database procedures to support Power BI analytics dashboards and ad-hoc reporting.
- Managed data quality through validation scripts and logging frameworks, ensuring reliable reporting across 300+ subway stations.
- Participated in daily stand-ups and delivered bi-weekly executive presentations on critical projects.
- Deployed CI/CD pipelines in Azure DevOps for automated testing and production rollouts of data workflows.
- Collaborated with cross-functional teams to translate business needs into analytics visualizations and KPI tracking.

Junior Developer

Jun 2023 – Aug 2023

Qdexi Global Solution LLC

Remote

- Built real-time analytics dashboards with React, Node.js, and MongoDB for business intelligence reporting.
- Integrated AWS services (S3, Lambda, EC2) into data flows for scalable, serverless data processing.
- Implemented backend logging and health check APIs to improve system monitoring and fault detection.

Software Developer Intern

May 2022 – Nov 2022

SR Transport Management Services Private Limited

Delhi, IN

- Developed and optimized APIs supporting logistics workflows with SQL backend improvements.
- Increased query performance by 3x through database profiling, indexing, and query optimization.

Software Engineer Intern

Jul 2021 – Oct 2021

SR Transport Management Services Private Limited

Delhi, IN

- Refactored MySQL queries and backend logic to reduce API response times by 40% in production systems.
- Participated in code reviews, QA, and deployment pipelines to ensure reliable, maintainable backend services.

EDUCATION

New Jersey Institute of Technology

Sep 2023 – May 2025

Master of Science (MS) in Computer Science

Newark, NJ

Guru Gobind Singh Indraprastha University

Aug 2019 – Jul 2023

Bachelor of Technology (BTech) in Information Technology

Delhi, IN

SKILLS

Data Tools: MySQL, PostgreSQL, MongoDB, Oracle DB, Power BI, AWS Glue, Power Automate, Azure DevOps

Languages: Python, SQL, Java, JavaScript, C++, Shell

Data Engineering: ETL workflows, Data Warehousing, Data Quality Management, Big Data, Analytics, Visualization

Frameworks: React.js, Node.js, Express.js

Cloud & Production: AWS (S3, Lambda, EC2), Azure, CI/CD pipelines, serverless architectures

Practices: Agile/Scrum, REST API Development, production-ready data pipelines

PROJECTS

Find My Provider Healthcare Directory

Jan 2025 – May 2025

- Developed a scalable React Native application integrating the CMS NPI Registry API for large-scale provider data searches.
- Optimized query handling, pagination and distributed search logic for high-volume concurrent requests.

AWS Image and Text Recognition Pipeline

Sep 2024 – Dec 2024

- Built an AWS pipeline using Java SDK and Maven to perform object detection and OCR on images stored in S3.
- Designed event-driven ETL workflows with Lambda and CLI tools for fault-tolerant, production-grade processing.
