## SUMMARY

- Passionate computer science graduate with over 4 years of hands-on experience in 5+ programming languages, 3 operating systems, and a demonstrated commitment to continuous learning and growth in technology.
- Applies object-oriented programming principles and rigorous debugging/testing techniques through work experience and practical projects, including developing an automated plant watering system which enhanced problem-solving skills and technical proficiency.
- Demonstrates strong problem-solving abilities by designing and building new tools, leveraging a proactive approach to programming and development, with a focus on delivering practical solutions and innovations.

## EDUCATION

### Bachelor of Science (Honours) in Computer Science w/ Co-op

York University

September 2020 - April 2025

- Related coursework: Advanced Object-Oriented Programming, Software Design, Discrete Mathematics, Data Structures

## EXPERIENCE

### Technical Project Controls Intern

Ontario Power Generation

January 2024 - August 2024

- Developed and maintained 10+ complex Excel models and queries to calculate month-end financial metrics for 5+ departments, including interest and contingency, demonstrating strong analytical skills and proficiency in data manipulation.
- Delivered 8 comprehensive monthly presentations to VP and C-level executives, showcasing project progress and financial insights, which enhanced communication skills and the ability to translate technical data into actionable business insights.
- Created 3 autonomous Power BI dashboards to provide real-time project overviews for over 10 team members, improving data visualization and decision-making processes, and demonstrating a solid grasp of business intelligence tools and data analytics.
- Enhanced 4+ visual reports using SQL queries and Python, streamlining reporting processes by 30% and improving data accuracy, which led to more efficient and insightful financial analysis.

### Corporate Credit Risk Analyst Intern

Scotiabank

May 2022 - September 2022

- Verified consistency between over 40 portfolio authorization documents and recorded data.
- Aided in data migration for 5+ sectors including retail, real estate, and technology.
- Contributed to a critical data cleanup project for 120+ accounts across multiple industries.
- Enhanced portfolio authorization efficiency by supporting senior team members and optimizing processes.

## SKILLS AND CERTIFICATES

- Coding Languages: C#, C++, C, Java, Python, Visual Basic, HTML, JavaScript, SQL
- Tools: Tableau, Eclipse IDE, Microsoft Excel, Power BI, Microsoft Office, Jira, Service Now
- Federal security clearance / Eligible for TN visa for U.S.-based roles
- Microsoft Azure AI Fundamentals certified / Google Data Analytics Certification (in progress)
