- Performance Monitoring and Insight Generation
- Tableau and Dashboard Development
- Excel (Pivot Tables, Charts)
- Process Improvement and Documentation
- Problem-Solving and Analytical Thinking
- Effective Communication and Data Storytelling
- Eager to Learn: Python, Cloud Platforms (GBQ, Snowflake)

PROFESSIONAL EXPERIENCE

PINNACLE FEDERAL ADVISORY, LLC (Washington, DC)

Program Analyst, 12/2023 – 05/2025

- Conducted data analysis on VA policy datasets, providing actionable insights to support strategic initiatives and operational efficiency for the Department of Veterans Affairs (VA).
- Collaborated with cross-functional teams to develop process flows, SOPs, and project management artifacts (Work Breakdown Structures, Integrated Master Schedules, Project Management Plans), ensuring alignment with project goals.
- Analyzed critical issues, proposed data-driven solutions, and monitored key documents (white papers, policy reviews) to influence VA leadership decisions.
- Facilitated requirements-gathering sessions, testing events, and training, capturing action items and ensuring timely delivery of project deliverables in a fast-paced environment.
- Managed risk by identifying, mitigating, and escalating potential issues, ensuring operational stability and compliance.
- Utilized MS Visio process flow to track which assignments go where and are assigned to who.

LITTLE STARS DAYCARE, LLC (Falls Church, VA)

Data Analyst, 01/2023 – 07/2023

- Performed data analysis on behavioral and financial datasets, tracking sleep, feeding, and parental schedules for 6 children using Excel, improving operational decision-making.
- Developed Tableau dashboards to visualize trends in child behavior (crawling, walking) and financial expenditures (toys, cribs, books), enabling data-driven program enhancements.
- Compiled and analyzed expense and payment data, providing insights to optimize resource allocation and address parental inquiries.

TARGETED VICTORY (Arlington, VA)

Data Analyst, 12/2021 – 01/2023

- Analyzed multi-channel marketing campaign data (Ads, Emails, Fundraising) using SQL, Tableau, and Excel, identifying trends to optimize client strategies and improve ROI.
- Designed and developed Tableau dashboards for external clients, integrating data from Excel and CSV sources, enabling performance tracking and actionable insights.
- Conducted data validation and resolved discrepancies in reports, ensuring accuracy for client-facing deliverables and internal product teams.
- Calculated key metrics (Cost per Acquisition, Return on Ads) to support data-driven decisions, enhancing campaign performance.
- Collaborated with stakeholders to gather requirements, translate business needs into technical specifications, and deliver reports using Excel and BI tools.
- Developed reusable Tableau dashboard templates, improving reporting consistency and efficiency for the data team.
- Trained and onboarded new data team members, fostering collaboration and knowledge sharing.

KASTLE SYSTEMS, (Falls Church, VA)

Marketing Temp, 09/2021 – 10/2021

- Conducted research, verified and inputted missing contact information on Access to update it for Sales Department
- Researching and filled over 37,000 contacts through Costar and ZoomInfo licenses on to MS Access
- Paid close attention to detail to verify/update missing contact information

ANTHEM, INC. (Richmond, VA)

Care Management Systems Analyst Intern, 05/2020 – 08/2020

- Created system requirements for business reports using MS Office and Visio
- Tested reports for user acceptance in accordance with SharePoint
- Analyzed tickets for report enhancement regarding patient records
- Contributed to a group project creating a dashboard comparing three levels of evaluation data on Excel

EDUCATION

VIRGINIA COMMONWEALTH UNIVERSITY, Richmond, VA

Bachelor of Science in Information Systems, 05/2021
