SUMMARY

Proficient in developing and maintaining **web applications** and **microservices architectures** using **Typescript**, **Node.js**, **React.js**, **Angular** and **AWS serverless services**. Demonstrated excellent **communication** and **team collaboration** in **Agile environments**, mentoring peers and driving **technical excellence** in projects.

WORK EXPERIENCE

Atmos Energy

Nov 2024 – Present

Full Stack Developer (NodeJS)

- Designed and developed high-performance web applications using **Angular** and **Node.js**.
- Optimized server performance with **Node.js** asynchronous programming, clustering, and load balancing techniques.
- Collaborated with cross-functional teams using **Jira**, adhering to **Scrum** practices.

Charles Schwab

Feb 2024 to Nov 2024

Full Stack Developer

- Developed web applications using **typescript** with **React.js** and **Node.js**.
- Built and integrated **RESTful APIs** for communication between front-end and backend systems.
- Developed serverless applications using **AWS Lambda**, **API Gateway**, and **DynamoDB**.
- Enhanced database performance with indexing, optimization, and data modeling in **MySQL** and **MongoDB**.

University of North Texas

Nov 2022 – Dec 2023

Full Stack Developer

- Optimized University Dining services application performance by leveraging **Node.js asynchronous programming** and implementing caching solutions.
- Conducted thorough testing and debugging using tools like **Postman**, ensuring reliability and robustness of RESTful APIs.

Capgemini Technology Services, India

Jul 2021 to Jul 2022

Full Stack Developer

- Developed **microservices architectures** using **Node.js**.
- Managed secure **authentication and authorization** using **JSON Web Tokens** and integrated **OAuth2**.
- Streamlined **CI/CD pipelines** using **Jenkins**, integrated with **Git** for version control and automated deployments.
- Wrote and executed unit and integration tests using tools like **Jest**, **Postman**, and **React Testing Library**.
- Implemented advanced state management techniques using **Redux** and React context API.

PRIMUS Global Technologies Pvt Ltd, India

Jul 2019 to Jul 2021

Full Stack Developer

- Enhanced application response times by leveraging **Node.js asynchronous programming**.
- Streamlined **CI/CD pipelines** using **Jenkins** and containerized applications with **Docker** for efficient deployments.
- Actively participated in **Agile workflows**, including sprint planning, daily stand-ups, and retrospectives.

TECHNICAL SKILLS

- **Programming:** Node.js, JavaScript (ES6+), TypeScript, Java, Python, SQL, HTML, and CSS
- **Frameworks & Tools:** Express.js, Visual Studio Code, Postman, Docker.
- **Databases:** MongoDB, MySQL, PostgreSQL, and Redis.
- **Version Control:** Git, GitHub, and GitLab
- **Cloud and DevOps:** CI/CD pipelines, Docker, and Kubernetes, AWS services including EC2, S3, and Lambda
- **Soft Skills:** excellent communication and collaboration skills for working effectively in cross-functional teams.

EDUCATION

University of North Texas

Master's in computer science

Denton, TX

Cumulative GPA: 3.5
