

Lawrence Abhinav Gunkonda

Business Analyst

Dallas, Texas || Email: lawrenceabhinavgunkonda@gmail.com || Contact No: (908) 212-3043 || [LinkedIn](#)

SUMMARY

- **Experienced Business Analyst** with **4 years** of expertise in **requirement gathering, gap analysis, process improvement, and stakeholder communication** to drive business success.
- Proficient in **SQL, Excel (VLOOKUP, Pivot Tables, Macros), Tableau, and Power BI** for data analysis, reporting, and visualization to support decision-making.
- Hands-on experience with **JIRA, Confluence, and Agile methodologies** for managing sprints, user stories, and cross-functional team collaboration.
- Skilled in **UML, BPMN, and process modeling tools like Visio and Lucidchart** for documenting workflows, business processes, and system requirements.
- Strong knowledge of **CRM (Salesforce), ERP (SAP, Oracle), and data warehousing (Snowflake, Redshift)** to streamline operations and enhance efficiency.
- Well-versed in **business intelligence, financial modeling, and regulatory compliance (SOX, HIPAA, GDPR)** to ensure data accuracy and adherence to industry standards.

DOMAIN SKILLS

Data Analysis	Data Cleaning & Visualization	Data Modelling & Interpretation
Market & Trends Analysis	Data Mining & Forecasting	Data Validation
Data-driven Decision Making	Team Management	Cross-functional Coordination

TECHNICAL SKILLS

Methodology:	SDLC, Agile, Waterfall, Kanban
Programming Languages:	Python, R
Database Management:	SQL, MS XS, MS Excel, Requirements Traceability Matrix (RTM)
Documentations:	FRD, BRD, SRS, User Guide, User Stories, Use cases
Project Management Tools:	MS Project, MS Excel, MS SharePoint, Asana, Trello, Rally
Visualization Tools:	Tableau, Power BI,
Business Analysis:	Cost/benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis
Tracking Tools:	Jira, HP Quality Center, Rational ClearQuest, RTM
Cloud Computing Platforms:	AWS, Azure
ERP Planning & CRM:	SAP, MS Dynamics Nav, Salesforce, HubSpot
Technical Skills:	KPI, UAT, Test Plans, Alteryx, Requirement gathering, Google Analytics, Data Analysis, MS Visio, JAD, MS 360, Web XP, Software development & testing, Data Modelling, Database Knowledge, Business Intelligence (BI) Tools, Process Mapping, User Experience (UX) Understanding, Quality Assurance (QA) Knowledge, Prototyping
Soft Skills:	Time management, Leadership, Management, Problem-solving, Negotiation, Decision-Making, Documentation, and Presentation, Verbal communication, Sprint Planning

EXPERIENCE

McKesson Corporation, Texas | Business Analyst | Sep 2023-Present

- Led the Healthcare Claims Process Optimization Project, leveraging Lean Six Sigma methodologies to enhance efficiency, resulting in a 25% reduction in claims processing time.
- Analyzed inefficiencies in claims management workflows, developed data-driven solutions using Six Sigma principles, and implemented process enhancements that minimized rework and denials.
- Conducted business requirements analysis, translating findings into eight Business Requirement Documents (BRDs) and scope documents to support claims process improvements.
- Facilitated six Joint Application Design (JAD) sessions with stakeholders and development teams, gathering detailed functional and technical requirements for two Health Management Utilization projects.
- Utilized statistical modeling and data analysis techniques to evaluate claims processing efficiency, optimize staffing strategies, and improve operational productivity.
- Applied quality control methodologies to identify process bottlenecks, resulting in a 20% improvement in claims accuracy & reliability.
- Developed and optimized process flowcharts, identifying workflow inefficiencies and implementing strategic modifications that reduced operational costs and accelerated turnaround times.
- Delivered executive-level presentations using MS PowerPoint, ensuring effective stakeholder communication and compliance with HIPAA regulations, maintaining zero security breaches.

Accenture, India | Business Analyst | Jun 2019-Jul 2022

Project: 1

- Led the full-cycle execution of over 20 electronic payment processing projects across diverse regions, ensuring timely delivery and achieving a 99.98% client satisfaction rate with successful market rollouts.
- Performed in-depth data analysis using SQL and Excel to validate system configurations and identify optimization opportunities, leading to a 15% reduction in configuration issues and improved operational efficiency.
- Automated daily status reporting by developing a Visual Basic macro, reducing production issues by 45% by proactively detecting error-prone activities.
- Designed and presented insightful visualizations using Power BI to track trends, error occurrences, and patterns, empowering data-driven decisions for system enhancements.
- Partnered with cross-functional teams to gather and document business requirements, ensuring system configurations aligned with both business goals and regulatory standards.
- Delivered training on dual message payment processing systems to global teams, boosting team proficiency and operational efficiency by 10%.
- Served as the key liaison between clients and internal teams, translating complex technical details into actionable insights, and facilitating clear communication of project requirements.

Project: 2

- Led a team of data interns to design and optimize a scalable ETL pipeline using GCP for audio and video data processing, enhancing the system's capacity to handle 100GB of data daily, while managing project timelines and ensuring seamless scalability.
- Worked closely with Product Managers and Cloud Engineering teams to align business strategies with technical architecture, ensuring the delivery of integrated solutions that adhered to program standards and business objectives.
- Spearheaded automation of data validation and transformation processes, reducing manual intervention by 60% and accelerating time-to-insight for media model improvements, driving efficiency in project execution.
- Developed detailed business requirements and optimized workflows for the ETL pipeline, ensuring alignment with technical specifications and improving the overall media processing for the Voice Synthesizing AI model.

EDUCATION

Master of Science in Advanced Data Analytics

– University of North Texas, Denton, Texas

B. Commerce

– B. Commerce, GITAM Univ, Vizag, India
