

# LIKHITHA MANNEM | Senior Data Analyst

Orlando, FL | +1 (689) 269 - 3331 | [likhitham0729@gmail.com](mailto:likhitham0729@gmail.com) | LinkedIn: [www.linkedin.com/in/likhitha-mannem-716813273](https://www.linkedin.com/in/likhitha-mannem-716813273)

## SUMMARY

High Analytical senior Database & HRIS Systems Analyst with 5+ years of experience designing, configuring, and optimizing data-driven HR, Payroll, and Finance systems. Proven expertise in ADP Workforce Now (WFN) modules, SQL, Excel, and Power BI, with a focus on data integrity, reporting automation, and workflow optimization. Skilled in partnering with HR, Payroll, and IT teams to streamline HRIS processes, integrate vendor systems (ATS, LMS, benefits), and ensure compliance with data security and privacy standards. Adept at translating functional HR needs into scalable technical solutions.

## TECHNICAL SKILLS

|                                           |                                                                                                                                                                                                                          |

## PROJECT – Cloud-Based Data Pipeline Optimization (Azure Data Factory & SQL Server) (2025)

**Duration: 4 Months | Tools: Azure Data Factory (ADF), SQL Server, Python, Power BI, Alteryx**

- Designed and implemented a scalable ETL pipeline using Azure Data Factory to extract, transform, and load multi-source datasets (financial, CRM, and transactional) into a centralized Azure SQL database.
- Created SQL data models (Star and Snowflake schemas) to structure raw data into dimensional models supporting analytics and Power BI dashboards.
- Developed Python automation scripts to validate record counts, schema consistency, and data integrity during migration and transformation stages.
- Integrated Alteryx workflows to cleanse and standardize data before ingestion into Azure SQL, improving accuracy and reducing manual validation efforts by 35%.
- Built Power BI dashboards to visualize data pipeline performance, latency metrics, and error trends, providing transparency to stakeholders and enabling proactive maintenance.
- Conducted query optimization and indexing in SQL Server to reduce data load time by 40% and improve overall ETL throughput efficiency.

## EXPERIENCE

**Senior Data Analyst | Charles Schwab, FL**

**Jul 2025 – Current**

**Focus: Reporting, Data Integration, and Workflow Automation**

- Administered and optimized ADP Workforce Now (WFN) modules including Recruitment, Core HR, Compensation, and Time & Attendance, improving process efficiency and user adoption.
- Developed SQL and ADP Reporting queries to automate HR, Payroll, and Finance data extracts for compliance, audits, and workforce analytics.
- Partnered with HR and Payroll to configure data feeds and integrations between WFN, benefits vendors, and financial reporting systems, ensuring complete data synchronization and accuracy.
- Created Power BI dashboards visualizing headcount, turnover, labor cost, and time tracking metrics—improving HR visibility and decision-making.
- Built and maintained data validation scripts to detect and correct discrepancies in employee, compensation, and timekeeping data.
- Coordinated quarterly WFN system updates and regression testing, ensuring minimal downtime and smooth rollout of new features.
- Collaborated with IT to manage role-based access and security compliance aligned with HR policy and GDPR guidelines.
- Led HR & Payroll data audit and reconciliation projects, identifying anomalies across HR, Finance, and ADP modules and resolving

them through automation.

- Documented system configurations, integration specifications, and user guides to support ongoing maintenance and training.

**Data Analyst Intern | Charles Schwab, FL**

**Feb 2025 – May 2025**

**Focus: Data Pipeline Optimization, SQL Automation, and Reporting Infrastructure**

- Assisted data engineering teams in **designing and testing ETL pipelines** within **Azure Data Factory (ADF)** to automate extraction, transformation, and loading of high-volume financial datasets from multiple source systems.
- Wrote and optimized **SQL queries, stored procedures, and indexing strategies** to validate data accuracy, enhance query performance, and reduce report refresh times by 25%.
- Collaborated with senior engineers to create **data models (Star & Snowflake schemas)** supporting Power BI dashboards and executive financial analytics.
- Supported **data quality assurance** by developing validation scripts and audit checkpoints to ensure integrity during staging-to-warehouse migrations.
- Developed **Excel and Power BI reconciliation** reports that visualized key operational and financial KPIs for month-end close cycles.

**Data Analyst | Intex Technologies, India**

**Jan 2022 – Jul 2023**

**(Client: Bell Canada)**

**Focus: Payroll Data Management, Reporting Automation, and System Integration**

- Designed **SQL-based data models and ETL workflows** to integrate HR, Payroll, and Finance data sources into centralized dashboards for workforce analytics.
- Developed **Excel Power Query templates** and Power BI dashboards tracking employee lifecycle data, compensation metrics, and performance KPIs.
- Partnered with HRIS teams to implement **vendor integrations** between ATS, benefits systems, and payroll, automating data exchange using REST APIs and SFTP feeds.
- Maintained **metadata documentation, mapping tables, and data dictionaries**, ensuring consistent reporting across HR and Finance systems.
- Created automated **audit reconciliation reports** to validate data consistency between HR and Payroll modules, reducing manual review time by 40%.
- Collaborated with HR stakeholders to develop **custom ADP reports and labor distribution models** for strategic planning and budgeting.
- Implemented **data quality rules and exception reporting**, improving accuracy in HR metrics and compliance submissions.

**Business Data Analyst | CitiusTech, India**

**Mar 2020 – Dec 2021**

**Focus: Workforce Analytics, Compliance Reporting, and Data Governance**

- Developed SQL queries and stored procedures to extract, validate, and analyze workforce data for HR, Payroll, and Finance teams.
- Built ad-hoc Power BI dashboards tracking labor allocation, overtime, and training utilization across departments.
- Partnered with HR teams to define KPIs and reporting standards for headcount, attrition, and payroll reconciliation.
- Participated in the implementation of HRIS integrations with benefits providers and performance systems, ensuring seamless data flow and accuracy.
- Conducted periodic HR/Payroll audits, reconciling employee, position, and compensation data for compliance readiness.
- Developed Excel-based data audit templates to automate exception detection and maintain accurate HR master data..

**Data Analyst Intern | Hexaware Technologies, India**

**Jul 2019 – Jan 2020**

**Focus: Data Validation and Reporting Support**

- Assisted in configuring and validating HRIS datasets during system rollouts for Payroll and Core HR modules.
- Built Excel and SQL audit reports comparing employee data across legacy and new systems, identifying discrepancies before production go-live.
- Supported HR analytics team in creating Power BI dashboards summarizing employee demographics, payroll compliance, and training participation.
- Collaborated with IT and HR teams on user access audits, role assignments, and process documentation.
- Supported UAT testing during ADP and HR system module upgrades.

## **EDUCATION**

**Master of Science in Computer Science**, Florida Atlantic University, FL

**May 2025**

**Bachelor of Technology in Computer Science**, Swarna Bharathi Institute Of science and Technology, India

**Sep 2020**

## **LEADERSHIP EXPERIENCE**

**Mentor – International Friends Program (IFP)**

**spring 2025**

- Provide guidance and support to new international students, fostering a welcoming environment.
- Organize group activities and events to promote cultural exchange and community building.

**Public Relations Committee Member – Asian Student Union**

**Sep 2024 – Apr 2025**

- Promote club events through campus outreach and social media.
- Engage with students to increase awareness and participation in cultural activities.

**Secretary & President– Swarna Bharathi Institute of Science & Technology, India**

**Jan 2018-June2020**

- President, Student Creative Club Founded and led a student-run creative organization focused on student development and cultural engagement. Promoted leadership, creativity, and collaboration among 100+ students
- Organized campus-wide events and workshops, managed budgets, coordinated with faculty and administration, and oversaw all communications, meeting documentation, and event logistics to ensure seamless execution.
