SUMMARY

Full stack engineer with 2 years building web apps and APIs, improving performance, and deploying on cloud. Strong in React, APIs, SQL, and automation. Graduate CS student focused on scalable systems. Seeking Fullstack Software Engineer, Product Experiences at Snowflake.

EDUCATION

Illinois Institute of Technology — Chicago, United State Aug 2024 - May 2026(Expected)
Master of Science - Computer Science | CGPA: 3.83
B N M Institute of Technology — Bengaluru, India Aug 2017 - Aug 2021
Bachelor of Engineering - Computer Science | CGPA: 3.9

SKILLS

Frontend: React, TypeScript, HTML, CSS, Jest, React Testing Library, Vite, Webpack
Backend: Node.js, Express, Java, Spring Boot, REST, GraphQL
Database: PostgreSQL, MySQL, Oracle
Cloud & Devops: AWS, OCI, Docker, Git, CI/CD, Linux

EXPERIENCE

Illinois Institute of Technology — Teaching Assistant Aug 2025 - Present | Chicago, US
• Automated grading and analytics for 70 plus weekly submissions. Produced CSV and dashboard style summaries that cut turnaround by 50%.
• Containerized lab environments for 100 plus students using Docker. Reduced setup variance and support tickets.
• Built incident tracking and quick triage scripts. Kept lab uptime high during peak deadlines.
AR Systems Co., Ltd — Software Engineer (Full Stack) Apr 2022 - Mar 2024 | Tokyo, Japan
• Built and optimized APIs that improved data retrieval latency by double digit percentages across user flows.
• Modernized frontend features in React and reduced bundle size and load time through targeted refactors.
• Automated batch workflows and release tasks, cutting manual effort and incidents.
• Tuned SQL queries and indexes to speed up critical endpoints and reports.
• Wrote pytest suites with fixtures and mocks. Enforced coverage in CI. Reduced regressions by 40%.
• Led QA passes with automated checks that reduced post release defects.
• Deployed and operated services on OCI and AWS with high uptime and clear runbooks.
AR Systems Co., Ltd — Software Intern Aug 2021 - Feb 2022 | Remote
• Resolved 15 plus high priority defects in VB.Net and PHP modules, improving stability of enterprise data flows.
• Localized internal tools for bilingual use, improving adoption by 40%.

PROJECTS

Secure Notes Web App, React, TypeScript, Node.js, PostgreSQL, Docker

- Full stack CRUD with auth, role based access, input validation, and testing.
- Implemented pagination, optimistic UI updates, and API error contracts.
- Containerized with one command local dev and GitHub Actions CI.

System Metrics Dashboard, React, GraphQL, Python exporter

- Live charts for CPU, memory, and disk.
- Batched resolvers and caching to keep p95 under target.

LLM assistant with guardrails

- FastAPI orchestration with streaming. React UI for operators. Audit logs, rate limits, and request tracing. Deployed to Vercel and AWS API Gateway with Lambda

ACHIEVEMENTS

- AWS Certified Solutions Architect — Associate
- Japanese Language Proficiency - JLPT N4
- Mentored 4 junior developers and interns, improving team code quality and on-time delivery by 20%.
