

Likitha Tadakala

likithatadakala@gmail.com | +1 (317)-777-4949 | [LinkedIn](#) | [GitHub](#)

Objective

Data Scientist with experience in applied machine learning, analytics, and decision intelligence, skilled in translating complex data into actionable business insights using Python, SQL, and Power BI.

Skills

- Programming & Querying: Python, SQL
- Data Analysis & Visualization: Pandas, NumPy, Power BI, Matplotlib, Seaborn
- Machine Learning: scikit-learn, Feature Engineering, Model Evaluation (Precision, Recall, mAP), Explainable AI (XAI)
- Deep Learning & Computer Vision: PyTorch, TensorFlow, OpenCV, YOLO
- Cloud & Development Tools: AWS (EC2, S3, SageMaker, Rekognition, Textract, Lambda, IAM), Docker, Git/GitHub, Jupyter Notebook
- Business Tools: Excel, PowerPoint

Internships

- Actual Reality Technologies | Data Science Intern | Perrysburg, USASeptember 2025 - Present
 - Achieved **70% mAP@0.5** on 400 annotated images by building an object detection model for automated drawing analysis.
 - Identified key accuracy drivers through statistical performance analysis to support business forecasting.
 - Built **Power BI** dashboards using DAX to track project KPIs for stakeholders.
 - Co-authored an **arXiv research paper** on iterative dashboard design and decision intelligence.
- Intel Corporation | Industrial Trainee | Hyderabad, IndiaApril 2023 - July 2023
 - Trained a YOLOv5 road-scene detector achieving **75% mAP@0.5** across 3 classes.
 - Conducted class-wise error analysis to address class imbalance and small-object failures.
- CodesOnBytes | Data Science Intern | Hyderabad, IndiaDecember 2023
 - Cleaned and analyzed public API data using **Python** and Pandas.
 - Built a scikit-learn **regression** model to support trend forecasting.

Projects

- SmartClean AI - Hybrid Machine Learning Framework for Automated Data Cleaning
 - Designed an end-to-end data cleaning pipeline combining statistical, ML, and rule-based methods.
 - Delivered **63× faster performance** than transformer baselines while maintaining **98% data quality**.
 - Deployed the system as a **Flask** web application for interactive validation.
- Vision For The Blind
 - Built an assistive vision system integrating object detection, color recognition, and OCR using **Inception V3** and OpenCV.
 - Achieved **96% accuracy**, enabling real-time audio feedback for users.
- YouTube Learning Chatbot - LLM-Powered Q&A Assistant
 - Developed an LLM-based Q&A assistant using YouTube video transcripts.
 - Implemented **offline deployment** with Ollama (Mistral, LLaMA2) to ensure data privacy.

Publications & Research

Beyond Visualization: Building Decision Intelligence Through Iterative Dashboard Refinement - **arXiv**
VISION: Visual Insight Solution Interface Outreach Navigator - **IEEE Xplore**

Leadership & Activities

- Organizer, AI Collective (Toledo Chapter) - Coordinated a panel discussion with 3 industry professionals on AI's impact (benefits and risks), attended by ~70 students, faculty, and professionals
- Member, AI Club (University of Toledo) - Participated in ML-focused discussions, collaborative projects, and technical events

Certifications

AWS Certified Cloud Practitioner
AWS Certified AI Practitioner

Education

- Master of Science in Computer Science (Artificial Intelligence)August 2024 - (Expected) May 2026
University of Toledo | Toledo, United StatesCGPA - 4/4
- Bachelor of Technology in Computer Science Engineering (Data Science)August 2020 - May 2024
Malla Reddy College of Engineering & Technology | Hyderabad, IndiaCGPA - 3.6/4
