

EDUCATION

Florida State University

Masters of Science in Computer Science
CGPA - 3.67/4.0

Tallahassee, FL, USA

Aug 2023 - May 2025

GITAM University

Bachelors of Technology in Computer Science and Engineering
CGPA: 3.4/4.0

Vizag, AP, India

Jun 2019 - Apr 2023

EXPERIENCE

FSU LakeFront Park

Guest Services Supervisor

Tallahassee, FL, USA

Mar 2024 - Present

- Supervise a team of 20+ staff members, delegating tasks effectively to ensure smooth park operations while fostering a positive and efficient work environment.
- Delivered high-quality customer service by assisting 50+ guests per shift, handling equipment rentals, answering inquiries, resolving concerns, and ensuring a welcoming and inclusive environment for all visitors.
- Enforce park policies and safety regulations, ensuring compliance with university and recreation guidelines to maintain a safe experience for guests.

Phoenix Global

Web Developer Intern

Vizag, AP, India

May 2022 - Dec 2022

- Streamlined frontend architecture of a hotel booking website using HTML, CSS, and JavaScript component-based approach, improving cross-browser compatibility and achieving a 30% reduction in page load time
- Implemented modular, reusable components using JavaScript frameworks, resulting in a 25% increase in user satisfaction and a 10% boost in conversions
- Collaborated with UI/UX designers and backend developers in a cross-functional team environment, adopting code review practices to maintain codebase quality and consistency
- Optimized website accessibility and performance through responsive design techniques, reducing bounce rate by 30%

PROJECTS

Cloud Based Ticket Management System With Facial Recognition

- Tech Stack:** AWS EC2, AWS RDS, AWS Rekognition, HTML, CSS, Javascript, ReactJS, NodeJS, ExpressJS, MySQL
- Engineered and deployed a web-based system to streamline customer identification and authentication for travel agencies using facial scanning technology.
- Utilized AWS EC2 for deployment, AWS Rekognition for facial recognition, and AWS RDS for database management.
- Built using ReactJS (front-end) and NodeJS/Express (back-end) integrated with a MySQL database hosted on AWS, enhancing operational efficiency by 40% and improving customer experience.
- Enabled facial-based customer verification, real-time data storage, and authentication, leading to reduced fraud and improved service efficiency.

Spotify End to End Data Engineering Project

- Tech Stack:** SQL, Python, AWS Lambda, S3, Glue, Athena, Eventbridge, Power BI
- Built a fully automated, serverless ETL pipeline that extracted Spotify Top 100 Global song data daily using the Spotify API and AWS Lambda.
- Transformed raw JSON into structured CSV files for albums, artists, and songs, then stored and cataloged them in Amazon S3 and AWS Glue.
- Quired cleaned data using Amazon Athena and ran SQL-based analysis to uncover song popularity trends, artist rankings, and playlist dynamics; visualized insights in Power BI dashboards for exploration.

Finance: Credit Card Fraud Detection Using Anomaly Detection

- Tech Stack:** Python, SQL, Scikit-learn, Power BI, Excel
- Built an unsupervised machine learning pipeline using Isolation Forest and LOF on 250K+ transactions to detect fraudulent activity and behavioural anomalies.
- Automated ETL with SQL and Excel for data preprocessing, and visualized fraud patterns and KPIs with real-time Power BI dashboards.
- Reduced fraud detection latency by 28%, enhancing responsiveness through dynamic anomaly-based data visualizations.

Healthcare Analytics: Patient Readmission Risk Prediction

- Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Power BI
- Applied machine learning to build a predictive model using Logistic Regression and XGBoost (82% accuracy) on 50K+ EHR records to classify high-risk readmission patients.
- Performed data preprocessing, feature engineering, and statistical analysis to identify drivers like chronic illness and medication adherence.
- Delivered clinical insights through Power BI dashboards, supporting hospital departments with interactive data visualizations of patient risk factors and KPIs.

TECHNICAL SKILLS

Python, SQL, Power BI, MS Excel, AWS (S3, Athena, Glue, Redshift, QuickSight, Lambda, RDS, CloudWatch), Data Visualization, MySQL PostgreSQL, MongoDB, Cassandra, Hadoop, Apache Kafka, Apache Hive, Apache Spark, Data Warehousing, Google BigQuery, Snowflake, Statistical Analysis, Data Cleaning & Wrangling, Data Modelling, ETL Processes, Matplotlib, Scikit-learn, Git, HTML, CSS, Javascript, ReactJS.

CERTIFICATIONS

- AWS Certified Solutions Architect Associate - AWS.
- AWS Certified Cloud Practitioner - AWS.
- AWS Certified Data Engineer Associate - AWS
