+1 737 318-3722 | lipi.inampudi2001@gmail.com | [LinkedIn](#)

Experienced Software Engineer specializing in AI agent development, data analytics, and full-stack application development. Proficient in SQL, Python, Tableau, and CrewAI, with a Master's in Business Analytics and AI. Created and deployed AI-driven agents for automating business processes, streamlining workflows, and leveraging data to deliver actionable business insights.

SKILLS

Programming languages: Python , R Programming, Java, SQL

Tools and frameworks: CrewAI , Tableau, Excel, SAP HANA, Katalon Studio, SAS

Software Development and Testing: Software Testing Life Cycle (STLC), Quality Assurance (QA), Test Automation

Business Skills: Brand Management, Data Warehousing, Business Analytics, Project Management

EXPERIENCE

Tecra Systems Inc

Austin, USA

Software Engineer [Artificial Intelligence]

Feb 2025 - Present

- Developing autonomous AI agents utilizing CrewAI and integrating Large Language Models (LLMs) to automate key business processes including research, summarization, and communication tasks, improving efficiency by 30%.
- Engineered and optimized agent performance through YAML configurations, prompt engineering, API integrations, and optimizing task execution, and enhancing overall workflow efficiency through the automation of routine operations.
- Pioneered the automation of cross-platform data integration tasks by researching and deploying cutting-edge AI methods, achieving a 20% reduction in time spent on manual data handling and eliminating common operational errors.

Tech Vision Inc

Dallas, USA

Business Data Analyst

Sep 2024 - Dec 2024

- Utilized SQL to extract and analyze extensive IT support ticket data from the company's IT Service Management (ITSM) platform, identifying key trends in ticket volume, resolution times, and technician performance. This analysis contributed to optimizing internal processes and improving overall efficiency.
- Developed and implemented dynamic Tableau dashboards that automated reporting processes, reducing manual efforts by 30%, and providing stakeholders with real-time insights to support data-driven decision-making. Applied statistical analysis and forecasting to optimize ticket resolution workflows, reducing resolution time by 15%.
- Conducted predictive analysis of support ticket data to proactively manage resources, reducing urgent cases by 10%.

Cognizant Technology Solutions

Bangalore, India

Full Stack Developer [Application Development and Maintenance]

Feb 2022 - Jul 2022

- Designed and developed a Mail-Order Pharmacy application using Java, Spring Boot, and Microservices architecture, enhancing user experience by improving drug search functionality, prescription management, and refill processes.
- Built and integrated RESTful APIs for Drugs, Subscription, and Refill Microservices, improving response time, ensuring seamless communication and data flow across services, enhancing application scalability and performance by 20%.
- Led the design and deployment of an interactive Member Portal using Angular, enabling users to manage prescriptions, track refill history, and place orders.
- Conducted comprehensive software testing with Junit and Katalon Studio, achieving over 95% test coverage, identifying and resolving critical bugs, and ensuring the application's stability and reliability for end-users.

Channelsoft

Vijayawada, India

Software Engineer Trainee

Jul 2021 - Sep 2021

- Gained hands-on experience in Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), and Quality Assurance (QA) processes, understanding development models to ensure successful project delivery.
- Designed and executed test cases for the eResearchTechnology (ERT) platform, ensuring system reliability and compliance.
- Automated QA testing using Katalon Studio, improving test coverage by 25%, reducing manual efforts, and enhancing application stability. Assisted in debugging and troubleshooting software issues, improving application stability.

EDUCATION

- University of Texas at Dallas**, Dallas, Texas, USA

Jan 2023-Dec 2024

M.S., Business Analytics and AI

- VR Siddhartha Engineering College of Engineering**, Vijayawada, Andhra Pradesh, India

July 2018- July 2022

B.Tech., Information Technology
