BUSINESS INTELLIGENCE ANALYST

SUMMARY OF QUALIFICATIONS

Business intelligence analyst with 5+ years of experience transforming complex data into actionable insights in consumer goods and retail industries. Skilled in SQL, Python, Power BI, and Tableau for dashboard design and reporting automation. Known for effective collaboration with leadership and technical teams to ensure strategic alignment of data initiatives.

PROJECTS

PepsiCo Sales Forecasting Model (2023):

- Developed a machine learning model using Python and scikit-learn to predict sales trends, improve forecast accuracy by 20% and reducing inventory costs by \$1.2M annually.
- Collaborated with cross-functional sales and planning teams to integrate forecasts into decision-making, enhancing inventory and demand planning efficiency by 25%

Consumer Behavior Segmentation Platform (2022):

- Implemented K-means clustering algorithms in SAS to segment 500,000+ customers based on purchasing behavior and demographics, creating 6 distinct customer profiles for targeted marketing.
- Increased campaign conversion rates by 15% and reduced marketing spend by \$350K by tailoring strategies to each customer segment, resulting in 22% higher ROI for promotional campaigns.

SKILLS

Language & Frameworks: Python, R, SQL, SAS, Pandas, Scikit-learn

Visualization Tools: Tableau, Power BI, Matplotlib, Seaborn, Plotly

Databases: MySQL, PostgreSQL, SQL Server,

Tools: Excel, Git, Jupyter Notebook, VS Code

Analytics Expertise: Predictive Modeling, A/B Testing, Customer Segmentation, KPI Dashboards, Regression Analysis.

Business & Strategy: Financial Forecasting, Budgeting, Product Lifecycle Analytics, Agile/Scrum, Project Management

CERTIFICATIONS

- SAS Predictive Analytics
- SAS Applied Data Analytics
- SAS Business Intelligence and Performance Management

RELEVANT EXPERIENCE

CODING TEMPLE., REMOTE

Business Intelligence & Data Analyst

DEC 2024-JUNE 2025

- Executed real-world data analytics projects by leveraging SQL, Python, and Tableau to ensure data-driven decision making.
- Designed and conducted A/B Tests to evaluate marketing strategies and optimize business performance, leading to actionable insights for growth and revenue maximization.
- Developed 5 interactive Tableau dashboards that streamlined KPI tracking, reducing reporting time by 30% and improving stakeholder decision-making efficiency.

MADHAV SHARMA

- Implementing predictive modeling techniques using Python (scikit-learn) to forecast customer behavior and improve sales forecasting accuracy by 15%
- Applying machine learning algorithms for customer segmentation, enabling businesses to tailor marketing strategies and enhance customer engagement by 20%.

PEPSICO INC., MANASSAS, VA

Sales/Marketing Analyst

JAN 2019-SEPT 2024

- Conducted strategic analysis of sales and marketing data to identify business opportunities, reducing costs by 15% and influencing data-driven decision-making at the leadership level.
- Collaborated with cross-functional teams to develop forecasting models that improved accuracy by 22% and shaped long-term strategic planning.
- Streamlined data workflows by automating data extraction from multiple sources, reducing analysis time by 40% and improving efficiency.
- Developed 8 interactive dashboards in Tableau and Power BI that were used by 200+ stakeholders, enhancing data-driven decision-making across departments.
- Acted as a liaison between technical teams and business units, ensuring alignment of analytics initiatives with organizational objectives and increasing project success rate by 35%.
- Established best practices for data analysis and reporting, driving process improvements that increased operational efficiency by 25%.

WALMART INC, VA

Purchasing Analyst

Nov 2017–Dec 2018

- Provided actionable insights through data analysis, enabling category leaders to reduce procurement costs by 10%.
- Conducted supplier evaluations and market analyses for 50+ vendors, identifying cost-saving opportunities of \$100K and fostering strong supplier relationships.
- Created advanced Excel-based reports and dashboards that reduced decision-making time by 30% and supported procurement strategies.
- Collaborated with 5 internal departments to align sourcing strategies with organizational goals, improving vendor performance metrics by 18%.
- Participated in cross-functional initiatives to enhance supply chain processes, reducing delivery times by 15% and showcasing adaptability.
- Oversaw daily operations for a team of 6, optimizing performance and ensuring 98% customer satisfaction rating.

EDUCATION

- **Master of Science in Data Analytics, July 2023** (Colorado State University Global Campus, CO)
- **Data Analytics Bootcamp, June, 2025** (Coding Temple, USA)
