

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, JavaScript, TypeScript

Web Development: React.js, React Native, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend & Frameworks: Spring Boot, Spring Core, Spring MVC, Spring Security, RESTful APIs, Microservices

Databases: MySQL, Oracle, SQLite, MongoDB, PostgreSQL, DynamoDB

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, CloudWatch), Terraform, Docker, Kubernetes, CI/CD

Tools & Platforms: Git, GitHub, Jupyter Notebook, Linux, Mac OS, VS Code

Other: Data Structures & Algorithms, OOPs, Multithreading, Scalable Systems, System Design, Agile, SDLC

EXPERIENCE

Software Engineer

Jul 2021 – Jun 2023

Srika Projects, Hyderabad, India

- Designed and developed scalable, fault-tolerant web applications using **Java, Spring Boot** reducing system response time by 40% through backend optimization and efficient DOM rendering.
- Exhibited strong command of **React.js, JavaScript, CSS and CSS3** to implement responsive UI design ensuring 100% mobile compatibility and a unified user experience across devices.
- Built **RESTful APIs** with **Spring Boot** and **Maven**, adopting MVC architecture to increase API development speed by 35%. Implemented **JWT-based authentication** using Spring Security, reducing security vulnerabilities by 30%.
- Deployed containerized microservices on **AWS (EC2, S3, RDS)** using **Docker** and **Kubernetes** for orchestration, improving scalability and uptime.
- Actively monitored distributed systems using AWS CloudWatch, improving uptime and proactively identifying simulation bottlenecks.
- Leveraged **SQL (MySQL, Oracle)** and **NoSQL (MongoDB)** databases, optimizing queries to cut data retrieval time by 50%. Designed schemas for high-performance CRUD operations.
- Practiced **Agile methodologies**, leading sprint planning and code reviews. Used **Git/GitHub** for CI/CD pipelines, ensuring seamless team collaboration and 100% feature delivery on schedule.
- Partnered with cross-functional teams including design, sales and marketing to gather requirements, prioritize tasks and deliver features on schedule.

Web Development Intern

Apr 2021 – Jun 2021

Exposys Data Labs, Bangalore, India

- Collaborated on an e-commerce platform using **HTML, CSS, and JavaScript**, achieving 100% mobile responsiveness and reducing page load time by 30% via lazy loading and DOM optimization.
- Designed SQL/NoSQL schemas and implemented CRUD operations, improving data retrieval efficiency by 25%.
- Conducted peer code reviews and debugged data flow issues, maintaining clean, scalable code with Git version control.

TECHNICAL CERTIFICATIONS

- AWS Certified Solutions Architect – Associate** ([SSA](#)), Database Programming with SQL, **ORACLE ACADEMY** (2021), Data Science and Cloud Solutions Internship, 3CORTEX (2022)

PROJECTS

Task Manager Application: React.js, TypeScript, Spring Boot, Tailwind CSS, MySQL

- Developed a microservices-based task management platform with secure REST APIs using Spring Boot and JWT-based authentication.
- Developed a responsive, component-based UI for smooth task creation, editing, and filtering, using Tailwind CSS with PurgeCSS to cut CSS bundle size by 40%.
- Deployed Dockerized backend on AWS EC2 and integrated CI/CD for automated deployments.

Secure Text Transfer Using Diffie-Hellman Key Exchange Based on Cloud: React.js, JavaScript, CSS, AWS, Python, Cryptography

- Architected a cloud-hosted file transfer system using the Diffie-Hellman protocol and custom encryption in Python to ensure secure key exchange and data transmission.
- Developed the front end with React.js, CSS, and JavaScript, and deployed on AWS EC2, blocking all unauthorized access and reducing response time compared to local hosting.

Handwritten Equation Recognition and Solver : Python, CNN, TensorFlow/Keras, OpenCV

- Developed a deep learning model using CNN and OpenCV to recognize and solve handwritten mathematical equations, with custom line and character segmentation.
- Integrated an equation solver, achieving 88% character recognition accuracy and 85% end-to-end solving accuracy.

EDUCATION

University of South Florida

Master of Science in Computer Science

Tampa, FL

Aug 2023 – May 2025
