

Madhushi Udeshika

Recent graduate of the BSc (Hons) in Computing and Information Systems program (awaiting official graduation), with experience in system documentation, project coordination, and data analysis. Demonstrated ability to manage solo and team-based projects, gather requirements, design solutions, and communicate technical information clearly. Looking to contribute to IT operations, support, or analyst roles in a dynamic organization.

Work Experience

Trainee Developer

New Release Biz Holdings (Pvt) Ltd - Mattegoda

April 2024 - September 2024

- **Project Coordination** - Led a solo project from planning to execution, demonstrating time management and organizational skills.
- **Process Optimization** - Streamlined workflows by documenting clear procedures, improving team efficiency.
- **Cross-functional Collaboration** - Worked with stakeholders to gather requirements and align project goals.
- **Documentation & Reporting** - Created detailed proposals and system requirements (SRS), highlighting technical writing and clarity by communicating complex ideas in simple terms.
- **Process Improvement** - Designed user-friendly workflows and layouts (Figma), showing problem-solving for efficiency.

Educational Background

BSc(Hons) in Computing and Information Systems

Sabaragamuwa University of Sri Lanka

2020 - 2025

- Relevant Modules:
 - System Analysis & Design
 - Business Intelligence
 - Logistics and Supply Chain Management
 - Information Systems Risk Management
 - Software Project Management
 - Business Process Management
 - Enterprise Resource Planning
 - Agile Development
 - Information Systems Strategies

Diploma in Psychology and Counselling

SITC Campus

2021

- Relevant coursework in psychology and counselling.

Diploma in English Language and Literature

Aquinas College of Higher Studies

Skills

Technical Skills

- Project Coordination
- Data Analysis & Planning
- Technical Writing
- Time Management
- Problem Solving
- Teamwork & Organization

Tools

- Documentation: MS Office
- Design: Figma, Canva
- Analysis: MS Excel, SPSS, Power BI
- Tools: Postman, MySQL Workbench, VS Code
- Languages: Python & Java (basic), SQL

Languages

- English (Working Proficiency)
- Sinhala (Native)

Academic Projects

Thesis: Exploring Correlation Between Social Media Usage and Anxiety Levels

- Applied quantitative research methods, developed and distributed surveys, and used SPSS for data analysis, enhancing skills in statistical reasoning, data interpretation, and research documentation.

Smart Grocery Store Finder

- Designed a location-based mobile solution to address product availability in local stores, strengthening skills in problem analysis, UI/UX prototyping, and requirements engineering.

TravelSphere Sri Lanka

- Planned a digital platform for local and international tourists to explore Sri Lanka, improving abilities in information architecture, feature mapping, and system planning for user-centered solutions.
