

MADHUSUDHAN RAO MANTHRIPRAGADA

Business Analyst

Location: Memphis, TN 38111 | Email: madhuraa2288@gmail.com | Phone: +1 (901) 631-5921

SUMMARY

- **More than 3 years experienced Business Analyst** adept in analysis, SQL querying, BI tools, project management, and documentation, proficient in SQL with experience in MySQL and SQL Server for database management and querying.
- Skilled in conducting various analysis types including Cost/Benefits analysis, Impact analysis, GAP analysis, Risk analysis, and SWOT analysis for informed decision-making.
- Experienced in using MS Project, MS Excel, MS SharePoint, and Primavera P for project planning, monitoring, and tracking.
- Familiar with creating Functional Requirements Document (FRD), Business Requirements Document (BRD), and Software Requirements Specification (SRS) for project documentation.
- Skilled in using Power BI, Tableau, and Excel for designing and creating business intelligence reports and dashboards.
- Proficient in Software Development Life Cycle, Agile, Scrum, and Waterfall methodologies for project management & software development.
- Experienced in working with Windows, Linux, and MacOS operating systems for varied IT environments.

SKILLS SET

Databases:	SQL (MySQL, SQL Server)
Analysis Types:	Cost/Benefits analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis
Project Management:	MS Project, MS Excel, MS SharePoint, Primavera P
Documentations:	FRD, BRD, SRS
ERP Planning:	MS Dynamics Nav, QuickBooks, NetSuite, Xero, JD Edwards
BI Tools:	Power BI, Tableau, Excel
Methodologies:	SDLC, Agile, Scrum, Waterfall
Operating Systems:	Windows, Linux, MacOS

EXPERIENCE

STATE STREET, USA

| Aug 2024 – Present

Business Analyst

- Developed project plans, style guides, and standardized templates to assess feasibility, estimate costs, define timelines, and establish structured guidelines for project teams, ensuring alignment with business goals.
- Created detailed documentation outlining business processes, functional requirements, and data analysis findings, enabling seamless collaboration among stakeholders and project teams.
- Designed and developed interactive dashboards and reports in Power BI, presenting key business insights in a clear and visually engaging manner for stakeholders.
- Conducted stakeholder interviews and requirement-gathering sessions, capturing business objectives and translating them into well-defined specifications for development teams.
- Provided strategic guidance and leadership to project teams, fostering improved communication, issue resolution, and workflow efficiency to support successful project execution.

BRIGHTMIND TECHNOLOGY, IND

| Jul 2019 – Jul 2022

Jr. Business Analyst

- Collaborated with stakeholders to gather business requirements, effectively translating these into actionable user stories for development teams, ensuring alignment with project goals and objectives.
- Conducted comprehensive data validation using SQL, and developed insightful dashboards and ad-hoc reports in Tableau, providing key performance indicators (KPIs) that empowered informed business decisions.
- Performed cost-benefit and risk analysis, evaluating business operations and identifying opportunities for process improvements, contributing to increased operational efficiency and smoother workflows.
- Utilized SQL for in-depth analysis, extracting meaningful insights to drive process optimization & support data-driven decision-making.
- Facilitated Joint Application Development (JAD) sessions, fostering open communication between stakeholders and technical teams, managing project goals, resolving conflicts, and ensuring alignment on expectations.
- Facilitated User Acceptance Testing (UAT) sessions, working closely with stakeholders to validate solutions and ensure that final implementations met business needs and expectations.
- Produced key project documentation, including Functional Requirement Documents (FRD), Business Requirement Documents (BRD), and System Requirement Specifications (SRS), ensuring that deliverables met stakeholder needs and project specifications.
- Utilized project management tools, such as MS Project, to track project progress, ensuring timely completion while adhering to budget constraints and project goals.
- Monitored project progress using Jira and Microsoft Visio, identifying potential issues and addressing them proactively through flowcharts and process diagrams, facilitating effective project tracking and resolution.

EDUCATION

Masters: Computer Information Systems
Christian Brothers' University

| Dec 2024
